## BRIDGING THE RIVERS.

A BILL INTRODUCED BYMR. BLOUNT, OF GEORGIA.

### THE MISTAKE OF A CONGRESSMAN,

Who Ordered Ten Thousand Copies of a Campaign Protection Speech, and Sent Out That of Judge Crisp By Mistake.

WASHINGTON, June 9 .- [Special.]-Mr. Blount introduced today two bills, one authorizing a railway bridge for the Macon and At lantic railroad over the Oconee within six miles of Dublin, Laurens county, and one over the Ocmulgee within six miles of the mouth of Tobesofkee creek, Bibb county; over the Savannah within six miles of the bridge of the Charleston and Savannah railroad bridge, Effingham county; one for the Middle Geor gia and Atlantic railroad over the Savannah, between the states of Georgia and South Carolina, at such point in the county of Effingham on the Georgia side of said river and such opposite point in South Carolina as upon octual survey may be deemed best.

THE CONGRESSMAN'S MISTAKE. Representative Stockbridge, a Maryland pepublican, made a strange mistake a couple of weeks ago, which has resulted in the dissemination of some good democratic tariff re-form literature in his district. He ordered 10,000 copies of the tariff speech of Governor Gear, of Iowa, from the folding-room, and ha them directed by his clerk to his constituents. During the past ten days his mail has been burdened with letters denouncing the speech as heretical, damaging to

the cause of protection, etc. Stockbridge was unable to understand it, as Gear's speech was a red-hot high protection argument. Today, however, the scales were opped from him when two of the speeche were returned to his eyes, and he found to his horror that instead of being Gear's speech they were copies of the tariff speech delivered by Judge Crisp, of Georgia. Mr. Stockbridge is is now kicking himself for having planted 10,000 free-trade speeches in his district. The mistake was caused through an error at the folding-room.

### THE SENATE'S SILVER BILL.

It Is Taken Up and Senator Cockrell Speaks for Free Coinage.

WASHINGTON, June 9.—In the senate Mr.

Hoar introduced a joint resolution proposing a constitutional amendment for the election of a postmaster.
Referred to the committee on privileges

and elections.

Mr. Call offered a resolution, which was re Mr. Call offered a resolution, which was referred to the committee on foreign relations, requesting the president to substitute negotiations with the government of Spain for such modifications of the treaty with that government as will enable American cattle to be shipped from Florida and elsewhere in the United States relieved from present oppressive rates of duty, and at such terms as may be reciprocated between Cuba and the United States

COCKRELL'S ARGUMENT FOR SILVER. The senate silver bill was taken up and Mr. Cockrell addressed the senate.

He spoke for free silver coinage, if the pending bill was enacted into a law; he said the further coinage of silver bullion into standard further coinage of silver bullion into standard silver dollars would rest wholly in the mere discretion of the secretary of the treasury. He could coin it or not at his pleasure. Under the law of February, 1878, the secretary of the treasury had to purchase not less than \$2,000,000 of silver monthly and coin it into dollars, and he could (if hew wished) purchase and coin \$4,000,000 a month. Under the proposed measure the secretary would have to purchase \$4,500,000 worth of silver every month, and pay out treasury

retary would have to purchase 2,500,000 with of silver every month, and pay out treasury notes for it, but he was not required to coin any of it into silver dollars.

Where, then, he asked, was there any benefit in the proposed bill over the existing law?

All the benefit that could be claimed for the All the benefit that could be claimed for the proposed bill was that the secretary would be compelled to purchase \$500,000 worth of silver every month more than he now had the right to purchase and that the currency would be increased to that extent. Silver bullion was to be treated as a mere commodity and was to be given none of the equivalents of money or currency. Why, he asked, continue that legal discrimination, and that relentless warfare against silver? He sketched the history of legislation in the United States touching gold and silver, and asked whether there was any valid reason justifying the conthere was any valid reason justifying the con finuance of the existing discrimination in favor of the free and unlimited coinage of gold, and of the issue of gold certificates for gold bullion, and against the free and unlimited coinage of silver bullion into standard dollars, and the issue of certificates for silver bullion. He denied that the free and unlimite coinage of silver and the free and unfinited coinage of silver and the issue of certificates for silver bullion would be in derogation of any obligation to the creditors of the nation.

At the close of Mr. Cockrell's speech the house silver bill was laid before the senate.

Mr. Teller moved that the bill be printed

## SENATOR VEST'S MEAT BILL.

Mr. Vest, in pursuance of a notice given by him last Saturday, asked the senate to take up and consider the bill reported by him from th and consider the bill reported by him from the select committee on the transportation and sale of meat products, "to prohibit monopoly in the transportation of cattle to foreign countries," and stated, as a reason, why action should be taken immediately, that the tariff bill (as he had been informed by members of the finance committee) would be before the senate within a week.

Mr. Stewart asked unanimous consent that on Friday next, at 3 o'clock, the senate shall

on Friday next, at 3 o'clock, the senate shall vote on the silver bill and all amendments

proposed.

The presiding officer (Mr. Ingalls) suggested that there should be at least a quorum present when unanimous consent was asked.

Mr. Stewart—Then I give notice that when the bill is taken up tomorrow I will ask unanthe bill is taken up tomorrow I will ask unan-imous consent to have a time [fixed for taking

BLAIR'S HUMOROUS REMARKS. Mr. Blair gave itlas his opinion that the inattention of senators and the persistent absence of a quorum were owing to the "dreadfully dry and uninteresting nature of speeches, and he added that the senate "had not been

truly and intellectually entertained since the

se of the debate on the educational bill.' [Laughter.]
Mr. Vest's bill was then taken up and the discussion of its provisions was carried on between Mr. Vest in defense of them and Messrs. Hoar and Hale in an attack upon them. The bill provides that no clearance shall be granted bill provides that no clearance shall be granted to any vessel plying as a common carrier from the United States to a foreign country the owners, agents or officers of which shall refuse to receive in order that they may be offered, said vessel having storage room for the same, any cattle for transportation to a foreign country, said cattle being in a sound condition, suitable for transportation, and the shipper tendering reasonable freight therefor, or who shall make any contract or agreement treating a monopoly of the capacity of said ressel, for carrying cattle in violation of the law governing and regulating the duties and obligations of common carriers of cattle to the

public, and providing unjust discrimination between shippers.

Mr. Hale moved to amend the bill by inserting the words "not already contracted for in good faith by persons or parties having cattle for transportation at the date of such contract sufficient to occupy such storage rooms."

The vote on Mr. Hale's amendment was—yeas 10; nays 23.

No quorum having voted, the senate, without further action on the bill or amendment, adjourned.

### AGAINST FOREIGN LANDLORDISM. Representative Oates's Bill to Prohibit Aliens

Representative Oates's Bill to Prohibit Aliens to Acquire Title to Lands.

Washington, June 9.—Representative Oates, of Alabama, from the committee on judiciary, today reported to the house a bill to prohibit aliens from acquiring title to or owning lands within the United States. An elaborate report accompanied the bill. In it the committee says the power of the government to totally exclude aliens from coming within its jurisdiction, as has been done in the case of the Chinese, no one questions. This sovereign power certainly includes the lesser one of defining what property rights they may exercise after they are admitted, and during the continuance of their alien condition. Your committee ascertained, says the report, with reasonable certainty, that certain noblemen of Europe, principally English, have acquired, and now ewn, in the agregate about 21,000,000 acres of land within the United States. We have not sufficient information to state the quantity owned by untitled aliens, nor is it so important, as it is generally held in smaller bedies. This alien, non-resident ownership will, in the course of time, lead to a system of landlordism incompatible with the best interests and free institutions of the United States. The foundation of such a system is being laid broadly in the western states and territories. The avarice and enterprise of European capitalists, the report continues, have caused them to invest many nellions in American railroad and to Acquire Title to Lands. ists, the report continues, have caused them to invest many millions in American railroad and land bonds, covering perhaps, 100,000,000 acres, the greater part of which, under foreclosure sales, will most likely, before many years, become the property of these foreign bond-holders, in addition to their present princely presents. This expressive foreign years, become the property of these foreign bond-holders, in addition to their present princely possessions. This aggressive foreign capital is not confined to lands it has purchased, but, overleaping its boundaries, has caused hundreds of miles of the public domain to be fenced up for the grazing of vast herds of cattle, and set at defiance the rights of the honest but humble settlers. The bill proposes to place these aliens under a disability of the civil law as to all future attempts to acquire lands in this country. In other words, the report says, the bill is a declaration against absentee land-lordism. It declares all foreignborn persons who have not been naturalized in

absentee land-lordism. It declares all foreign-born persons who have not been naturalized in capable of taking title to lands anywhere within the United States except a lease—held for not exceeding five years, and it has no re-troactive, but a prospective operation. It also contains a provision which will compel alien land-owners to cease to be such or to become citizens of the United States within ten years. The tenth census shows that the United States has 570,000 tenant farmers, the largest number possessed by any nation in the world. States has 570,000 tenant farmers, the largest number possessed by any nation in the world. In conclusion, the report says:

With the natural increase in population and 500,000 foreigners who flock to our shores annually, and by competition, are reducing the wages of labor, making the battle of life harder to win, how a few years hence to provide homes for our poor people is a problem for American statesmen to solve. The multiplication of owners of the soil is a corresponding enlargement of the number of patriots, and every land-owner in this country should owe allegiance to the United States.

Senator Blair today proposed to amend the tariff bill by extending the proposed bounty of two cents a pound on sugar raised on beets, sorghum or sugar cane, to maple sugar.

## "DISTRICT DAY."

#### Very Little Business Done in the House of Representatives.

Washington, June 9.—On motion Mr. Comstock, of Minnesota, the title of the silver bill passed Saturday was amended so as to read as follows: "Directing the purchase of silver bullion, and the issue of treasury notes thereon

and for other purposes."

The floor was awarded to the committee on the District of Columbia. After disposing of a few bills relating to the administration of the police and fire departments of the district, the bill relating to the occupancy of public grounds by the Baltimore and Potomac railroad was taken up in committee of the whole. Charles Vincent, member for central Shef-Charles Vincent, member for central Sheffield, called the attention of the house to the fact that the house of representatives at Washington had passed a bill providing for enhanced prohibitory duties on cut tin plates, iron hoops, and other articles of British export. He asked if the English government, having regard for the disastrous effect which the senate's approval has upon Sheffield, Midlands, South Wales and Belfast would adhere to their view. The free import system of the United Kingdom precluded instructions to the British minister at Washington to represent to the United States government the injury such legislation would do to an industry of a friendly power, which, in 1889, gave a free market to £95,000,000 worth of competing American goods.

Sir James Ferguson, under foreign secretary, said the government had not received a copy of the bill and had not been informed of any important alterations therein.

Charleston, S. C., June 9.—[Special.]— Ashley Junction, the classic town where the vestibule trains switch off on their way to Florida, is rapidly getting up a reputation.

Another murder occurred there today, mak-

The tragedy occurred at the identical spot

where the mysterious negro desperado killed a perro and wounded a white man about two weeks ago. No reason is given for the killing. The murderer leisurely walked off, and no at-

tempt was made to arrest him.

Ashley Junction is in Berkeley county, seven miles from this city, and consists of a half a dozen railway tracks and two stores. It has no population save the train hands, and the little niggers who flock to it in the winter and spring to sing and dance for the passing north-ern tourists on the vestibule trains.

panies from Running.

Columbus, O., June 9.—The consolidated street railroad succeeded in getting the first car out at noon. The police had massed at the barn where an effort was to be made, and where 2,000 people, including strikers, had congregated. The new men—sixty or more in number—were taken to the barns. The strikers first tried persuasion and succeeded in getting quite a number of new men to refuse to take cars out. As the first car pulled out it was boarded by police, strikers and the general crowd. Its course was down Long street to the principal thoroughfare. The first car was loaded down with strikers on top, and was derailed after running a mile. The driver was pursued through alleys and finally escaped. The second car was taken to Hicks street and was there thrown across the frack by the strikers and their friends, with windows broken and the car otherwise damaged.

The driver and conductor escaped, one of them being stoned. The police were unable to do anything with the excited thousands who had gathered. Employes of many of the largest works of the city are laying off to aid the strikers. The company contemplates asking for militia through the sheriff and governor.

## THE THREE NEGROES

MAY SWING BEFORE DAYLIGHT YET.

SEQUEL TO THE SUWANEE CRIME.

The First Lynching Party Delays its Work to Await Evidence, But There is no Telling What the Darkness May Bring Forth.

LAWRENCEVILLE, Ga., June 9 .- [Special.]-The three negroes, John Neal, John Pitts and John Williams, were safely lodged in jail here today at 2 p. m., though they came very near being taken from Conductor Collins' train and being dealt with by the enraged citizens, who had gathered from the surrou and were located in the woods.

THE PEOPLE ON THE ALERT.

The news reached here at noon that Detective Haynie was on his way to Mrs. Taylor's with them. A large crowd left for the scene at once. On arriving there they found that Mrs. Taylor had been carried to Suwanee. The crowd then started for Suwanee. It grew larger as distance was covered, until they arrived at Barns' gin-house, on the narrow; gauge railroad, when it halted.

MRS. TAYLOR TALKS.

Before arriving there, Mrs. Taylor was met, and in response to the inquiry if she had the

right negroes, she said: "I think they are the ones." The crowd then determined that the train, which went back to Suwanee for the negroes, to bring them here for safe-keeping, should be

stopped, and it was stopped. THE TRAIN HALTED. It was waved down by two men. They boarded the train, and as Conductor Collins saw a crowd emerging from the woods, he pulled out at once, but he left his coach with the negroes standing still, as some one had re-

moved the coupling-pin.

Messrs. Homer Jones and J. H. Gormanylwere in charge of the negroes. They were covered with pistols and guns at once, but on being as-Mr. Wright, of Elberton, the crowd decided to let them have a chance and do so, as Mrs. Taylor was not absolutely positive as to them, and they were brought on to town without

OTHERS MEET THE TRAIN.

A hundred men met the train, but being informed that the negroes might possibly be able to establish their innocence, and rebut the circumstances of guilt, they were allowed

to go quietly to jail. Mr. Spence Carter saw these negroes or Friday morning after the assault, going down the railroad towards Atlanta. He says he thinks they are the same negroes. His de-scription is near that of Mrs. Taylor's. Unless Mr. Wright testifies that these negroes were in Elberton on that day of the assault, they are

## FOUND IN THE RIVER

## With a Forty-Pound Stone Tied to His

ELBERTON, Ga., June 9 .- [Special.] - About three weeks ago, George Pem, a negro boy about eighteen years old, was arrested and lodged in jail in Elberton, in default of a one thousand dollar bond to answer to a charge of assault with intent to rape, alleged to have been committed on a fourteen year old daughter of W. S Butler, who resides in the upper part of the county.

Last week, J. N. Hall, who resides in the same neighborhood, signed the bond and security and took Pem home with him.

MASKED MEN. It seems that on last Thursday night the negro was put up stairs in Hall's house to sleep. About 12 o'clock that night twenty-five men, whether masked or not the evidence is not clear, went to Hall's house, and some of them went up stairs and got the negro and took him out. No more was heard of him until Sunday evening, when his body was Elberton, with a forty-pound rock tied to it, and three bullet holes in his head. The body was brought to Elberton this morning and a coroner's jury empanneled, with L. Schevenel foremen.

THE EVIDENCE IN. The evidence developed the fact that Hall was at home, but complained of being sick, and did not get up when the parties came, and nothing more was heard of the deceased until the body was found in the river on Sunday evening. The verdict of the jury was that the deceased came to his death either by gun-shot wound or drowning at the hands of unknown parties. The evidence was unsatisfactory, as the inquest was held so far from where they tragedy occurred, and the body was so much

#### decayed, that witnesses could not be waited for. THE OLD MAN DEAD.

Mr. Odum at the time of his death was one hundred and eight years old. HERE ARE THE LETTERS OF COL. NORTHEN AND COL. LIVINGSTON.

The Southern Alliance Farmer's Statement of the Situation—Some Decidedly In-teresting Reading.

Here is some interesting reading:
The Southern Alliance Farmer today settles
the question of the alliance action upon the
gubernatorial situation, with the publication
of a card from Hon. W. J. Northen smoothing over all seeming irregularities that have arisen between himself and the alliance, and a card from Colonel L. F. Lavingston declining to

run for governor.

In a double-leaded editorial the Southern Alliance Farmer says:
The Thing is Fixed.

For several months the people of Georgia have been agitated over the prospect of an exciting gubernatorial race. The situation as it appeared was that the only announced candidate for governor, Colonel Northen, would be opposed by Colonel Livingston, the president of our state chilaince. This prespect has been exceedingly gratifying to the outside politicians who hoped to enter in at the breach made by a contest between two leading farmers and alliancemen. As a result of this prospective breach, quite a number of anxious ones have been preparing to make a charge at the proper time.

The Southern Alliance Farmer has never been so greatly troubled about the results of this prospective canvass, because it knew that when the crisis came the great spirit of the alliance would be equal to the occasion.

be equal to the occasion.

We knew that to put the matter in the proper shape and to meet the exigencies of the occasion and the demands of the people two things had to

and the demants of the people we things
be done.

First. As most of our troubles were national and a great number of the people were demanding that Colonel Livingston represent their
interests in our national council, and at the same
time a large number were demanding that he run
for governor. It was necessary that he be placed
in a position where he could feel that he was
working the will of the great order which he repterestic.

resents.

Then it was necessary that Colonel Northen be baced in a position where he could be properly inderstood and supported by the large number of illiancenen who did not understand him. Having seen all this, The Southern Alliance farmer, in behalf of that great number and for lie good of the order, proceeded to hasten a crisis which it felt would result in an adjustment which rould be for the good of all.

the good of the order, proceeded to hasten a crisis which it felt would result in an adjustment which would be for the good of all.

As a result of this work, the Hon. W. L. Peek, that good and true man, who had almost secured the congressional nomination in this district, and who loves the alliance with his whole heart, requested President Livingston to let him call a conference with Brother Northen and other alliancemen, and if he found Colonel Northen to be in full accord with the alliance mall its measures, to let harmony and unity prevail. He further proposed that Colonel Livingston should take his place in the race for congress. The conference was agreed upon, President Livingston consenting not to oppose Colonel Northen if they could agree upon Northen's position upon alliance measures.

alliance measures.

This alliance conference was held and Colonel Northen satisfied those present, among whom were Colonel Peek and the manager and editor of this paper, that he was in hearty sympathy and accord with every movement and every measure of the order.

the order. When this decision had been reached, Colonel When this decision had been reached, Colonel Peek, with the true spirit of heroism, insisted that Colonel Livingston make the race for congress and represent the people there where the battle is to be fought. Brother Peek did not feel that he, himself, could not win the fight, but was confident that he could, and his multitude of friends feel that he would have made them an able and worthy representative, but his heart is in his work here and he wants to perfect the business which he has so nobly begun.

worthy representative, but his heart is in his work here and he wants to perfect the business which he has so nobly begun.

Now we present the beauties of our alliance to the brethern and to the world. When we informed Colonel Livingston, who has the assurance of an immense and enthuisatic following, and who, no doubt, could have led in the nominating convention, that Colonel Northen's position upon all adiance measures met the approval of this conference, he rose above all personal ambition and selfishness and said: "I will set my brethren an example of unity and of duty. I will not oppose Brother Northen for the governorship."

Colonel Northen puts himself upon the alliance platform, and says to our paper: "Though you have differed with me, I am on this platform, have been here all the while, and am here to stay."

With this assertion, and the full endotsement given in our conference, we present to our people Colonel W. J. Notthen as a man, a democrat and an allianceman worthy of their support, and who is in perfect accord with all the purposes and measures of the order.

We present as a candidate for congress from the fifth congressional district, Colonel L. F. Livingston, who has made in one day in Washington for his people; than any member of congress has made in four years. He is the champion for the people's rights, and in the halls of congress will make himself heard and felt in a way that no Georgian has done since the eloquent voice of Benjamin Harvey Hill was silenced.

We feel that we have great cause to congratulate our people and the entire state upon the adjustment of the momentous questions and rejoice with them that unity and harmony prevail in the ranks of the Georgia alliance. We are no prophet and have not presumed to be a dictator, but we do our duty and face all consequences.

The Southern Alliance Farmer has its desires.

the recovery of the state in its agricultural pros-perity, and my warmest sympathies and my untir-ing work have been given for the success of the efforts being made by the alliance of farmers to secure for themselves their rights in business and

in the government.

To these ends I have gladly given my time and my ability, and I shall continue until our agriculture shall be made prosperous under the righteous legislation of the country, and our farmers placed upon a plane level with all other classes of our people and enjoying their rights in the government side by side with the highest and best citizens in the land. people.

It gave me still more pleasure upon his invitation to meet in conference himself and others that harmony might be restored, and a full understanding of differences reached. It gave me still more gratification to have Colonel Peek commend so heartily my efforts for the general good of the state, and my work in the alliance for the prosperity of the people.

Colonel Livingston Declines. Colonel S. F. Livingston's card, the substance of which THE CONSTITUTION has alread

Colonel S. F. Livingston's card, the substance of which The Constitution has already printed, reads:

W. A. Starnes and Thomas E. Winn. Presidents of Faiton and Gwinnett County Alliances: In answer to resolutions passed by your county alliances; in the one instance asking me to announce myself a candidate before the democratic primaries for governor, and in the other, endorsing me for the same responsible and honorable position, permit me to say that I would be an ingrate did I not appreciate and prize such confidence and partiality from mylprethren and fellow-citizens. I have constantly and at every conceivable faconvenience and personal sacrifice labored to merit your esteem and confidence.

The effort to build up and defend our order in Georgia for the last eighteen months has not only taxed my entire time, but has often exhausted my patience. The effort to helittle and destroyits usefulness has been met at the threshold as best I could in every instance; with what success is known to the world. Today, we stand united, strong and aggressive. We are today respected by all who wish our welfare, and sympathize with us in our effort to better the condition of our people, and feared by those whose only object is to thrive upon the misfortunes of the masses.

All that I have done or may be enabled to do has been amply rewarded in the recognition that today our people are confident, hopeful and con-

teried. This brings a pleasure that cannot be expressed in inguage, or measured by official position, or the encoluments thereof. In all my public or private addresses I have not once mentioned myself in connection with the gubernatorial race. I had hoped—from vise and conservative action on the part of every one seeking office in Georgia in this, the crucial period of our history, that at the end we would still be found "working for a union and for a unit." This hope still inspires me to labor to that end, notwithstanding the fact that thousands of good and true alliancemen from every section of the state, have joined you in the request that I should allow my name to go before the primaries for governor; yet, my dear friends, as president of your state a liance, it becomes me to set the example of every possible personal sacrifice and forego every position of honor or trust rather than throw into our camp dissention or strife.

trust rather than throw into our camp dissention or strife.

To this end, however bright and encouraging my prospects are today to win the high and honorable position to which you demand my services, you must allow me to decline. In doing so, I do not bean to say, that as a Georgian, I would not be pleased to fill the chair as her chief executive, and do all in my power to influence and control legislation, and administer the affairs of state, so as to bring for a people for whom I have labored incessantly for twenty years the greatest amount of good, in this the day of special effort to inaugurate the era, once more in Georgia, of equall rights to all." I do not mean to say, either, that wherever I can serve you best, without antagonizing others of our order who may be seeking places of usefulness and honor, I would not cheerfully obey your call. No, indeed, my life, my services, one whatever talent I may possess, is at your command whenever our motto, physics, his services, and whatever takent I may possess, is at your command whenever our motto, in all things essential unity; m all things, charity," can be preserved unsullied. In conclusion let me beg of my brethren, to per-istently extend for such officials and legislators

sistently contend for such officials and legislator sistently contend for such officials and legislators as will at least promote the general good. Such men as can see, feel and understand the wants of those, today, burdened with unnecessary taxation and humiliated with positive refusal, and to every demand, or attempt to have just and non-discriminating legislation. Men who are not owned, or controlled by the money power—combines and monopolies of this country.

nonopolies of this country.

To this end, we must be unselfish, patriotic and united. Remember the combination of money, brains and numbers so recently marshalled against our brethren in Alabama. Take new courage and shrink not before numbers, money or duplicity. Our cause is that of humanity, "the right against might," and we give notice that no such combina-tions, either from within or without, will be tol-

erated or successful in Georgia.

I thank you, my friends, whether of one county or another, whether of one animace or another, for your many kind expressions and proffers of sup-port touching gubernatorial honors. I cannot close without thanking the many citizens of Georgia outside of our order who have so cheerfully and voluntarily tendered their support in the event I should have presented my name before the democratic primaries for governor of Georgia. To those who have abused me and spoken evil of the order or its purposes and plans, I commend to your better judgment and consideration the golden rule, "Do to us as you would have us do to you," were you in our condition and we in yours. L. F. LIVINGSTON.

IS HARDEMAN IN THE RACE? He is Said to be Awaiting Some Further

Developments.

Macon, June 9.—[Special.]—Hon. Thomas Hardeman's candidacy yet remains a mystery.

To The Constitution today he stated that he had not yet decided on the matter and it would probably be two or three days yet before he would make his intentions known. Whatever course he decides to pursue, will be made known in a speech in Houston county. He seems to think if the people of Houston honored him with their vote, unsolicited and without him even being a candidate, it is due to them that they should be the first to know his purposes.

It, might be construed, however, from his conversation that the Hon. Thomas Harde man, of Bibb, will be in the race. This comes from a source that cannot be made public at present, but it is altogether to be credited.

Colonel Hardeman, it seems, is waiting on certain developments that will take place tomorrow or next day.

HARDEMAN'S POSITION. He Says He Has Not Committed Himself

From the Macon, Ga, Telegraph.

When Colonel Livingston was in Macon,
Thursday, he was absolutely positive that the
organ of the Southern Alliance would never
support Mr. Northen, and, when twelve hours later, the organ, by his orders, came out in support of the very man that Colonel Livingstonhad pledged himself to work against, some

Mr. Northen also felt some uneasiness as to Mr. Livingston's position, because the day after he read the interview with that gentleman, which was printed in The Telegraph, he sent a special messenger to Macon to ascertain if the interview took place exactly as it was

reported. All these facts were known to Colonel Harde man and a great many of the leading politicians of Macon thought it probable that, as a combination had been formed by his opponents, he might decide to withdraw from When asked Sunday as to whether he race. would continue as a candidate, he replied: "There is no question of my continuing as

candidate, as I have never yet announced myself as one.'

"You have, however, said that you would do so if Houston county nominated you.

"I know I have said that, and I meant it, but as yet I have had no official notification of the result of the primaries in Houston county. When I have I will then make up my mind and make my decision known. If the people of Houston have nominated me, as it is re-ported that they have done, I should not feel at liberty to take any decisive step without a consultation with the gentlemen who have pushed me as a candidate, although it was

done without my consent."
"Will Colonel Livingston's sudden decision to support Mr. Northen affect your being a candidate?"

"I am not prepared to say now whether it will or not. Of course, there being only one candidate against me instead of two, will entirely alter the situation, but I am not prepared to make any statement just now. When I to make any statement just now. When I ave decided on the course I will pursue, I will make my intentions public: antil then, however, I prefer to say nothing."

"There was a report printed that you in-

tended to withdraw, was it true?" "It was absolutely false, as I have never said a word either way to any one."

Houston's Big Boom for Hender FORT VALLEY, Ga., June 9.—[Special.]— Hon. John T. Henderson overdoubled his op-ponents, Hunnicutt and Nesbitt, in this county. Hunnicutt made two or three speeches and Nesbitt was in the county two or three days, but the people vindicated all the charges against Henderson at she ballet-box without his ever coming into the county.

Henderson's majority over the combined

vote of his opponents was 200.

The Candidates in Rabi

BLUE RIDGE, Ga., June 9.—[Special.]—Mr. R.-P. Moody has announced as a candidate for the legislature. He is a republican. Mr. J. H. Witzel is being urged to make the race in this county by both parties. Mr. Witzel is a democrat, yet the republicans will give him a large rote. The democratic executive committee of Fannin county will be called to meet the first Taesday in July to decide whether a primary or mass meeting be ordered for the election of delegates to the congressional and state conventions.

Livingston for congress. Since THE CONSTITUTION startled the state with this announcement last Saturday morning the colonel has been vigorously at work and that he has been putting in some hard licks is evidenced by an interview with him

with a Constitution reporter yesterday. "I am on my way to Decatur," said Color Livingston, "and will stop over in Atlanta to attend the performance of Ben Hur, for the benefit of the Home for the Friendless, tonight, as my wife wants to see it. I have al-ready announced my candidacy, and propose to talk to the people of DeKalb about it tomorrow."

"Will you at once proceed to canvass the district?"

"I certainly will," replied Colonel Living-"I am going to speak not only in every county in the district, but in a good many of the militia districts. I shall give everybody chance to hear me, for I want to have a plain talk with the voters of the district about the ssues of the day. I want especially to talk to the business men of Atlanta, and if I do not convince them that my views are deserving of their support, I am willing to retire. I know that I have been abused and badly talked about by some, but I am proud of my record wherever I have spoken, and I am willing for the people of Atlanta to judge for themselves as to whether or not I am entitled to their support."

"Where do you speak next, after Decatur?" "I do not know positively that I will make speech between then and Saturday, at which latter day I am engaged to address the people of my own county. They want to hear from me at the mass-meeting which is to be held that day as to my views about the manner of their election. I shall ask them to order a primary, because I want the people to have a full and fair chance, and I want my county to set the example. After my speech on Saturday, I shall proceed at once to stump the district. I will arrange my dates as soon as possible, and hope to announce them this week."
"Will you have a joint discussion with

Judge Stewart?" Judge Stewart?"
"I hope so—I earnestly hope so. I have written him today to Griffin, inviting him to meet the people with me in a joint discussion, promising him that I would demean myself, as to our personal relations, in a manner that would meet his approval. I have just been to the depot to mail him this letter, in which I have asked him to favor me with a prompt reply. I suppose, of course, that he will ac-cept it. Several weeks ago the alliance of that county passed a resolution asking me to make the race for congress. The two met and discussed the situation. While the result of their conference is not definitely known, it is gathered from conversation with both sides that Colonel Livingston's idea in asking Judge Stewart to meet him here was to let him know formally that he would be in the race, and to assure him that as far as he was concerned he would conduct the campaign in an open and manly way, without personal abuse or attack.

Judge Stewart suggested that it was very impolitic for the two to run. "For," said he, "I have reliable information that if both of us run, Atlanta will make an effort to profit by the division and run a man of her ov

In answer to another question: "No, I couldn't well go into details now. Within two couldn't well go into details now. Within two
or three days I shall be in position to give you
some news. I have warm friends in every
county in the district—a man never had truer
ones—and expect to make a fight in all of
them. Not one of them is to be given up."
"About Fulton county, judge?"
"As between me and Livingston, I will

carry this county." "Do you expect Livingston to poll the full alliance vote in the district?"

"I give them credit for more intelligence. They are not going to be voted like sheep, whipped into line by a few scheming politicians. They are democrats, not sheep, and they are going to vote like democrats. I know the farmers of this district. I represent them in congress. And I know, if I know anything, that they are going to exercise, and man for that they are going to exercise, each man f himself, their own judgment and discretion. I am an allianceman. You have no choice but to vote for me.'

"The question for each allianceman is this:
'What is best for the alliance and for the farmers of Georgia? Who has done most and whom can we most safely rely upon to further our interests in congress?'
"The records are before them. The facts are before them, or I shall see that they are before the primaries are held, and I am confident as

to the result." Colonel Livingston's Announcement.
Colonel Livingston's formal announcement
as a candidate for congress appeared yesterday

in the Covington Star.

It reads:
At the request of many democratic citizens of the fifth congressional district, joined in said request by democrats from every section of the state, and alliancemen, who are democrats, from every county in the state, I announce myself a candidate for the fifty-second congress, subject to the nomination by the democratic party. I will appear before the public in each county and state fully and plainly my views on all public questions affecting their interest in national legislation, and if elected, promise to do all in my power for the best interest of the whole people and not for the few.

Colley Endorsed in Wilkes. in the Covington Star.

Colley Endorsed in Wilkes. WASHINGTON, Ga., June 9.—[Special.]— This has been a great day for Hon. F. H.

Colley in Wilkes.

At a large public meeting held here this afternoon, in the court-house, resolutions of most hearty endorsement were passed, declaring him to be the overwhelming choice of the county for congress. There were several hun-dred present, and the meeting was gotten up in a few hours. Many farmers were present and all were enthusiastic for Mr. Colley. Hon. B. S. Irwin presided, and Mr. William Wynne acted as secretary. Dr. Henry F. Andrews introduced the resolutions. Every mer-chant in town closed his store, and all who could attended. Mr. Colley will speak here t the whole people the 21st.

Hon. John D. Stewart in Walton,

MONROE, Ga., June 9.—[Special.]—Hon. John D. Stewart spoke here Saturday to the county alliance. His address was well received. The alliancemen as a rule expressed no opinion. They are waiting to hear Colonel Livingston. It is too early to predict which will carry the county. ion. They are waiting to near countringston. It is too early to predict which will carry the county.

There are five candidates for the house—two

alliancemen, two lawyers and a town doctor. The result is very doubtful, as each candidate is quite popular. Northen will carry the county without any trouble.

THE WORSHIPERS WONDER Why It Is that They Cannot Get Into Their

SAVANNAH, Ga., June 9.—[Special.]—No services could be held at the new Houston street Methodist church yesterday. This was due to trouble with the contractors in whose hands was placed the removal of the old building. When he had half turned the church around he stopped work, claiming that he would lose money on the job. Lumber was then heaped all around the church, and it was found impossible to hold services until the removal of the building is at an end. Several efforts, it is said, have been made to induce the contractor to finish the work, but so far they have been without success. The church has already paid over half of the contract price, and it is in a dilemma as to what course to pursue. due to trouble with the contractors in whos

Does Its Bloody Work in Gainesville-The Criminal Arrested.

GAINESVILLE, Ga., June 9 .- [Special.] -A egro by the name of Moon was killed Jesse Pool, another negro, at about 1 o'clock at Pleasant Hill church, in Clinchem district in this city. John Barleycorn was officiating at the scene of the murder, and no doubt con tributed very much to bring the killing about J. C. Moon, an uncle of the murdered negro swore out a warrant for Jesse Pool, the negr who manipulated the pistol, charging him with murder, and he was arrested promptly and is now in Hall county jail.

THE WILD BIRD DISABLED. The Charleston Prize-Winner Towed in

Thunderbolt.

Savannah, Ga., June 9.—Special.]—News reached the city this morning that the Wild Bird, the Charleston yacht that captured the first prize in the regetta on last Thursday, was disabled in Warsaw sound, and afterwards towed into Thunderbolt river by the steamer Crescent City. It is said that her rudder and anchor were lost, and other injuries sustained, whether in a severe blow, or by some accident, is not known. The fleet that went on the cruse, it is thought will be back on Wednesday.

AN IMPORTANT DECISION

Regarding the Liability of Telegraph Con panies for Messages.
SAVANNAH, Ga., June 9.—[Special.]—Judge Harden today handed down a decision on the demurrer in the case of W. C. Jones vs. the Western Union Telegraph company, argued last Thursday. The court sustained the de-murrer, deciding that the act of the legislature giving the right to recover \$100 for failure to deliver promptly and accurately a message did not apply when the telegram was sent from one state to a point in another state. Within the state the penalty could be recovered, but between the states congress had authority under the constitutional provision regulating ommerce among the states.

PROTECTION AGAINST FIRE. Athens About to Have a Paid Fire De

ATRENS Ga., June 9.—[Special.]—The city of Athens will have a paid fire department. It looks that way now, at least, and it is rumored that the city has bought Pioneer hall from the Pioneer hook and ladder company for \$3,000. It is thought that the city will at once put in a thoroughly efficient service, although it would be hard to improve on our present service.

Mr. Gamewell, of the Gamewell fire-alarm system, is here, and has made a proposition to the council to put in his system of fire-alarm toxes. It is thought the city will have it put in. This will give the city thorough protection from the hary element. The New Hotel for Carro

Livingston had a strong following among the alliances of this county, and had he made the contest for governor it would have been close between him and Northen. Tom Harde man also has many friends here, and had he been actively in the race the county might have gone for him, but the doubt that has surrounded his candidacy prevented his friends from taking an active interest in his behalf. Northen has a strong support in every militia

district in the county, and the convention was unanimously in favor of him this morning. His name was greeted with cheers, and the action of the convention in endorsing him is

generally approved. This is the first county that has declared for Northen, and it expects to lead the long roll of honor in his favor.

The convention endorsed Nesbitt for commissioner of agriculture. Mr. Nesbitt once lived in this section, and

BEATEN BY NEGROES.

An Aged Citizen of Macon Attacked at Night.

Night.

Macon, Ga., June 9.—[Special.]—The news of an attack made on an aged citiz of thi county on Saturday night, has jus: eached the city.

He is Mr. Jerry Hall, and is well known and respected in Macon. He lives about three miles from Macon on the Newton road. While on his way home, about 9 o'clock Saturday night, he was attacked by negroes and beaton. It was reported today that his injuries had resulted in death, but the rumor is without foundation.

dation.

Mr. Hall was for a number of years in the livery business in Macon and is about sixty years of age. Efforts are being made to capture the scoundrels who attacked him.

Grant Still at Large

Grant Still at Lorge.

Macon, Ga., June 9.—[Special.]—It became rumored in the city this afternoon that Grant, the negro who murdered Mr. Glozier on Saturday night, had been captured, but the rumor cannot be substantiated. It was thought that possibly he was in the hands of the citizens of South Macon and would occupy their attention after nightfall.

Grant left Macon on the East Tennessee road on Saturday night and it is thought got off either at Bullard's or Reed's.

If he is caught it is feared that a lynching will be inevitable.

Riotous Negroes Fined.

Macon, Ga., June 9.—[Special.]—The negroes captured by the police on Saturday night at the killing in South Macon, were: Jeff Jones, Dennis Johnson, Isham Collins, Charlie Cummings and Jake Shorter. All of these darkies were quite demonstrative when the trouble occurred, and were disposed to create a disturbance, and they were all arrested. Today they were fined \$25 each, or thirty days on the gang.

MET BY A BULLET.

Jackson Taylor, Colored, Shot Dead by Lon

Harris.

Elko, Ga., June 9.—[Special.]—A row occurred near here this morning, resulting in the death of one Jackson Taylor, colored. Jackson Taylor's son-in-law, Lon Harris, was in the employ of Taylor, and they got into a dispute, upon which Taylor chased Harris with his knife for some distance. Harris entered his house, and Taylor, knife in hand, followed close behind. As Taylor was about to enter the door, he was shot by Harris with a gun. Harris was arrested and taken to Perry Jail, but the supposition is that he will be released upon hearing, as it seems, from what can be learned, that it is a clear case of self defense. Harris.

WAYNESDORO, Ga., June 9.—[Special.]—
The second week of Burke's superior court
convened here today. The criminal docket
was taken up, and among the pleas of guilty
was that of Mr. H. A. Norrell, who shot Mr.
Jesse Thompson, at Midville, not long since.
He was fined \$200 for carrying concealed
weapons, the grand jury having failed to
find a true bill for the shooting of Mr. Thompson, from which he narrowly escaped death.
There was no bill as to the case of W. S.
Godbee for killing his brother-in-law, Mr.
Dave Perkins.

as well as the institution.

The sermon was preached by Dr. J. William Jones, of Atlanta. His text was John xi, 5: "Now Jesus loved Martha and her sister and Lazarus." He took as his theme the combined characters of Mary and Martha, the models for women of this age. On the one hand contemplation and piety were desirable, on the other practical energy. In their zeal for the homes of others, women should not neglect their own homes. He addressed some practical remarks to the graduating class, and closed with a beautiful peroration. The doctor is easily eloquent and stirs his audience with illustrations and reminiscences drawn from the confederacy. He preached again at night in the Baptist church upon the friends of God.

This often control the heaviful and interest.

INCREASED CLASSES AND NEW THE PATRIARCH OF THE GEORGIA LEGISLATURE DYING.

> Full of Years and of Honors, Colonel David J. Bailey is Awaiting the Final Summons-He Improves in Condition

LAGRANGE, Ga., June 9-[Special.]-This GRIFFIN, Ga., June 9.—[Special.]—Colonel D. J. Bailey is muc himproved today. He rested well last night, and awoke this morning Institution is closing its most prosperous and brilliant session in its long career of fortyrefreshed and conscious. Seeing one of his sons pass through his room with some papers, he asked what they were, and on being told, asked for THE CONSTITUTION, and spent some boarders 140, the music pupils 175 and the total time in looking over its news columns. While this is true, Colonel Bailey's condition is still school year are notable. Among them are eleven rooms added to the boarding-house,

critical, and the end may come at any time, and is not unlooked for by his devoted wife and family, who are constant watchers at his bedside. Dr. C. H. Tibault, his son-in-law, and a noted practicioner of New Orleans, is on of the attending physicians of the attending physicians. All that human power can do to alleviate his sufferings and prolong life are being done for Colonel Bailey.

Deaths in Georgia. Deaths in Georgia.

GAINESVILLE, Ga. June 9.—Mr. Garland D. Black, a prominent and highly respected citizen at this place, died of cancer of the stomach at his residence on Academy street, in this city, on Sunday morning at 20'clock, after being confined to his room for several weeks. His remains were interred in Alta Vista cemetery at 4 0'clock on yes terday afternoon. Mr. Black was about sixty-five years of age and has been a citizen of Gainesville for about twelve years.

TALLADEGA, Ala., June 9.—[Special.]—John D. Harmon, a son of A. J. and Martha E. Harmon, died at his home near Silver Run, Talladega county, Ala., May 21st, 1890, aged about thirteen years.

FROM OUR NOTEBOOK,

night in the Baptist church upon the friends pf God.

This afternoon the beautiful and interesting exercises by the juniors took place. Tonight the medical contests in vocal and instrumental music, varied by orchestral music, is in progress. The performances give evidence of the high standards in music, as in other departments, for which the college is noted. A large number of visitors are pouring in, and LaGrange presents a scene of gayety, beauty-and culture.

Ant cipations are high over hearing Dr. Ellis, of Baltimore, speak tomorrow morning and night, and the concert at night, with full chorus and orchestra. One of the renditions of the orchestra will be a thrilling representation of a fire alarm, with realistic effects, dedicated to Chief Joyner and the Atlanta fire department. Dr. Scott at Acworth.—Tonight in the Methodist church at Acworth Rev. W. J. Scott will deliver his famous Magna Charta lecture. All the tickets have been sold, and there will be a fine audience.

A Georgia Boyat Annapolis.—The week beginning with Monday, the 2d, concluded the naval tactics and drills on Friday, the 5th, at which time thirty-three cadets were graduated. Among this number was Lay Hampton Everhart, third son of Dr. Everhart, of Decatur. He had been appointed from Alabama, the doctor's former home. The present graduated class, four years ago, numbered eighty-six men, fity-two of whom, for one cause or another, failed to get through.

Northern Society.—The first regular meeting of the executive committee will be held this after-noon, and all applications for membership which reach the secretary's office, 15 North Broad street, by 3 o'clock today, will, if accepted, be received for the charter members' list.

A Telephone at the Park.—A telephone is to be put up at Grant park. One has been badly needed there for some time. The politic have had occasion for telephone use at the park a number of times, and the absence of such a convenience has occasioned no little trouble. Sergeant Curtright mentioned the matter to Mr. Gress, of the park commission, a few days ago, and as a result the telephone will be put in.

A Big Record.—Yesterday Recorder Kontz disposed of seventy-eight cases. This is the highwater mark in the history of the city. Never before have so many cases been tried by any recorder in a single day. The two station-house keepers have mark pages heard making out the pagers in have been run very hard making

Kontz and his matinee.

Trinity Meetings.—The service of the Sabbath and yesterday were deeply impressive. The love feast was enjoyed-by every person present. A large number testified, from the man of seventy to the youth, and the universal testimony was faith in Christ as the savior of men.

Many hearts were melted and great spiritual power rested on the congregation. There were four meetings held on Monday. The morning prayer meeting, at 9 o'clock, was well attended, chiefly by ladies. The noon-day service was very interesting. The young people and children came together at 5 p. m. and were very much encouraged. The night service was conducted by Judge W. R. Hammond-who made a strong and earnest plea for a copie scious experience of faith in Christ. His wis, and direct words were ! stened to with prefound attention and profit by the congregation. The order of services today with be as yestediay, m., 12 nl., 5 p. m. for young people and children 8 p. m. Rev. T. F. Pierce will preach tonight, will immediately afterwards hold the third q terly conference, which will be attended by all official members of Trinity church.

The Meeting Postponed.—The meeting of the Scotch-Irish society which was to have taken place at the Central Presbyterian church last evening, was postponed until next Monday evening at 6 o'clock, in consequence of the heavy rain. There are hundreds of Scotch-Irish people in Atlanta, and the meeting next Monday night will, doubtless, be well attended.

The Tailors' Union.—There was a meeting the tailors' union last evening, but nothing special importance was done. The regular meeting occurs on Monday next.

Rocks in Court.—Yesterday the case of Jasper N. Smith vs. the Citygof Atlanta.suit for damages, was called in superior court. The suit is based on the alleged renoval of a lot of "chiseled stone" by the city, and three or four huge rocks were produced in court as evidence. "If chiseled," said the defense, "they must have been cornered with a very dull implement." The case will be resumed today.

A Message from the Governor.—A letter from Governor Gordon was received yesterday at the executive department. He says that before leaving for home he shall hold one more conference with a number of gentlemen interested in the lease of the Western and Atlantic, while of course, he concludes, there is nothing definite to be said, the outlook is very promising for a satisfactory lease of the road under the present act.

University Trustees to Meet.—A meeting of the board of trustees has been called, to be held at Athens next Thursday, the 12th. Governor Gor-don expects to be back in time to attend that

The South-Bound Directors The South-Bound Directors.

Savannah, Ga., June 9.—[Special.]—Tomorrow, the board of directors of the South-bound railroad will meet in this city. All of the out-of-town members are expected to be present. The bids for the construction of the road will then be opened, and contracts perhaps, offered for the first thirty-five miles from Savannah northward. Work, it is expected, will begin at once. Work on the bridge across the Savannah river may also be started in a short time.

All Was Not Lost.

ALMOST BEATS HIS WIFE TO

He Then Discovers That Her Companion Was Her Grandmother, and Not a Lover-A Lost Pocketbook

ALBANY, Ga., June 9.—[Special.]—Last night, Abe Garry saw his wife, Ida, who had deserted him, walking from church. He thought he recognized another man with her and was seized with ungovernable fury. Drawing out his pistol he fired five shots at her and her companion. They ran for life.

THE CRUEL BEATING.

He pursued his wife, and catching her in a fence corner, dragged her out and commenced beating her with the butt of his emptied revolver. Her jawbone was broken and teeth knock-ed out by a cruel blow in the mouth. The back of her head was beaten in, and several terrible blows were administered on her chest and shoulders. Her grandmother was with her, and she was also attacked and savagely beaten on the head. Garry was arrested and jailed.

THE LOST POCKETBOOK.

John Greer lost his pocketbook. John Turner (colored) found it, and after spending a portion of the money tried to have a \$200 check cashed which he found therein. He was caught and jailed by Officer T. E. James

DePew's Southern Story. From the New York Star.

I was talking with Chauncey M. Depew the other evening about his recent trip south. During our conversation he said: "I found the southern people very interesting. The negroes are much more entertaining than I expected to find them. You know in the north we rarely if ever see the real darky, ragged, lazy and happy, as he is naturally. I overheard one conversation between an old aunty' and her daughter that will amuse you, I know. Here it is: now. Here it is:
'Liza Jane, hev yo' drum up all dem chicken

"'Yaas, ma,' "'Yo' sho' yo' druv em all up?'

"Yaas, ma.'
"Yo' count dem chiekens, Liza Jane?"

" 'How many wus dere, Liza Jane?" "'Right, Liza Jane.'"

Does your Cake Dry up · Quickly?

If so, your baking powder is adulterated with ammonia or alum, ingredients which are injurious to health and are used by unscrupulous manufacturers simply to lessen the cost of the powder and increase their profits. Housekeepers who use Cleveland's Su-

perior Baking Powder know that food raised with this pure cream of tartar powder keeps moist and sweet, and is palatable and wholesome. "Cleveland's Superior" has the peculiar

property, possessed by no other baking pewder, of producing light, wholesome bread, biscuit, cake, etc., that retain their natural moisture and sweetness. This desirable quality, in a baking powder shown by the Official Reports to be the strongest of all pure cream of tartar powders, makes Cleveland's Superior "Absolutely the Best." aug31 dly tu th sat top ad nrmrfrm 3 r5p

"BEST & COES FARTHEST."

Now that its manufacturers are drawing the attention of

the American public to this first and, ever since its invention, the best of all cocoas, it will soon be appreciated here as well as elsewhere all over the world. All that the manufacturers request is simply one trial, or, still better, a comparative test with whatever other cocoa it may be; then VAN HOUTEN'S COCOA itself will convince every one of its great superiority. It is because of this superiority that the English paper *Health*, says: "Once tried, always used."

To avoid the eril effects of Tea and Coffee, use constantly VAN HOUTEN'S COCOA, which is a STRENGTHENER of the NERVES and a refreshing and nourishing beverage. [32]

### The Men Who Print.

THE CONSTITUTION welcomes the mem bers of the International Typographical Union to Atlanta, and bids them feel at home while here.

They will find in Atlanta a city which has triumphed over war and incendiarism; whose people are engaged in the building up of their country, and in whom loyalty and selfrespect are distinguishing traits.

Many other gatherings have been welcomed to the city of Atlanta. We have had conventions of soldiers, business men, fraternities and political economists, but none of whom were as near to the public ear as the members of the convention now in the

The printer stands as a sentinel on the watch tower. It is his province to be awake while others sleep; to think while others believe: to blaze out the way into new eras and new modes of thought. We ask of him, on his return home, an honest verdict; one which will proclaim that he found here a loyal people who are proud of their traditions; a people progressive, generous and true, who desire amity with their fellowcitizens of every other section, and whose only request is that they be treated fairly and honestly, as they have always treated

### The Press and the Jury Box.

When a bill was introduced in the New York legislature, a few months ago, exempting editors, editorial writers and reporters from jury duty, very few thought that it would pass.

The author of the bill made a strong fight. He argued that newspaper men from the na ture of their occupation were familiar with the facts of many cases in the courts, and on that account had preconceived opinions. This incapacitated them from making impar tial jurors, and as the judges generally excused them it was proper that they should be regularly exempted by law.

This view of the matter so impressed both houses that the bill was passed, and has received the signature of Governor Hill.

It is to be doubted whether many other states will follow the example of New York. In some localities people have an idea that newspaper men have a fine time, and enjoy so many privileges that they should be made to share some of the public burdens. And yet we believe that the new law will increase the power and influence of the press for good. Journalists are really in the public service. They are a class of men set apart, and they will do better work for the people if they are freed from the annoyance of jury duty. There is no danger that the exemption wil give them idleness and case. They are des tined to live laborious days, and enjoy a very moderate share of the delights of existence. The New York editors are to be

## The Young Men's Library.

The indications are that this will be a year of progress for the Young Men's library. The first fortnight of the new administration closes with a handsome addition to the membership, and the prospect is that it will be very largely increased during the coming year. President W. M. Slaton is a regular dynamo of energy, and he is backed by an able and active board of directors.

What they undertake to do this year is briefly this: to improve the financial status of the library and broaden its work. The finances are already on the increase. The \$12,000 of bonds represent a small fraction of the value of the property owned by the association, and there is a good prospect of increasing the income so as to extinguish the debt in a few years and leave the institution a handsome income from its rent.

But the most important work will be to popularize the library and enlarge its usefulness among the people. The masses of this country are reading and thinking more than ever before. The rapid increase of all sorts of books and periodicals shows plainly that the people are reading, and the active progress of social reforms and even social revolutions shows that the reading has provoked a great deal of independent thought upon the problems which this generation must settle for good or evil.

In this state of affairs the duty and the work of the library become all the more important; and with a full realization of its opportunities, the board of directors is determined not only to keep abreast of the times in the books that go upon the shelves, but to bring here, under the auspices of the library, leaders of thought on those lines which most interest the people. It is hoped that announcements of this kind of work will be made soon, and, in the meantime, it is hoped that the public will avail itself, to the utmost, of the very generous collection upon the shelves of the library. A great dea! has been done to make the place attractive, and more improvements are in view. A committee has been appointed with a view to securing pertraits of Chief Justice Jackson and Judge Joseph Henry Lumpkin, and portraits of other distinguished men are to be added to the collection.

The library is a rich mine from which hundreds of boys and girls, as well as hund-

reds of their elders, are drawing. Hundreds of the older ones can trace some of the best work of their lives to the inspirastop long enough to think of this, and then let him give his boy these riches that are so cheap. The time is coming when the business man will have to be well informed on general topics if he would succeed. Everything is growing up for the next generation on a more comprehensive scale, and the man who wants to give his boys a fair start in the race of life will have to give them all these advantages that are thrown around him for a song.

The great reviews and other periodicals that are on the library tables every month will tell your boy a great deal that he ought to know, but cannot get in the schools. They tell him the story, too, in the language of the discoverers, inventors and pioneers

In a word, if you want your boy and girl to have a broad education, adequate to their coming needs, do not stop at the usual schooling, but give them access to the library. An Englishman doesn't think his boy is educated until he has traveled extensively. They get that way what is not taught in the schools. It broadens them. The broad reading of a great library is the next best thing to travel for eye-opening and broadening of the mind.

Then, let your boy read. You may not be able to let him travel when he is out of

### All Hail, the Rifles.

A glorious triumph is that of Atlanta's brave company which carries our flag in triumph in the international drill at Kansas

THE CONSTITUTION stated, when it asked a prompt response to the call to raise a fund to assist the company to make the trip, that Atlanta would have everything to gain and nothing to lose by sending the boys to Kansas City, and that every dollar invested in it would come back tenfold in the prestige that their visit would add to Atlanta's national glory.

And they have done exactly what THE Constitution predicted they would do, and what Atlanta confidently looked for them to

The Kansas City encampment has been one of the most noted ever held in this country, and in bringing from it the first prize for the international drill, the Rifles have secured a triumph in which every Atlantian feels pride.

The company will reach Atlanta by a special train of the East Tennessee, Virginia and Georgia railroad on Wednesday evening, and they should be welcomed as they deserve to be. Atlanta should receive them with open arms, and show that she appreciates their gallant work and the magnificent manner in which they have represented their city.

In order to arrange for their proper reception THE CONSTITUTION hereby takes the liberty of calling a meeting of the captains of the other companies of the city, for this morning at 11 o'clock in THE CONSTI-TUTION editorial rooms.

Captain John Miller, of the Horse Guards. Captain George Forbes, of the Artillery. Captain Sneed, of the Gate City Guard. Captain Hollis, of the Zouaves.

Captain Hall, of the Grady Cadets.

If these officers, and it seems as if this is the proper committee to take charge of the matter, will meet this morning at 11 o'clock in THE CONSTITUTION office, a programme can easily be arranged by which the young gentlemen will be received in a manner befitting the occasion.

And they should be royally received. All hail, the Rifles!

## A Possible Discovery.

It is claimed by the Hartford Courant that, after fifty years of experimenting, Mr. H. B. Cox, of Maine, has discovered a method of converting heat directly into electricity.

Such a method will make electric power so cheap and convenient that steam will be regarded as too expensive for ordinary uses. A million-dollar company has already been organized in Maine to develop the new discovery, and great results are expected.

The apparatus for converting heat into electricity is simple and cheap. The trouble is that the parties interested are not willing to disclose anything. They are as secretive as the Keely motor men. Naturally, people will doubt, but the fact that capitalists are willing to risk a million dollars in the discovery will convince many that there is something in it. We are on the eve of startling surprises in electrical science, and this may be one of them. Steam and horse power will have to be almost entirely given up in the near future.

## Mr. Hayes Makes a Remark.

Mr. Rutherford B. Hayes, who recently presided over a negro conference at Lake Mohawk, New York, made a speech on that occasion which, according to all accounts, was full of common sense. He avoided the political phase of the negro question, and dealt with practical every-day facts.

Speaking of the ignorance of the negroes, he pronounced it far more serious than "ignorance of letters," and he said, "it was safe to conclude that half of the colored population of the south still lack the thrift, the education, the morality and the religion required to make a prosperous and intelligent

citizenship." This is an exceedingly apt description of the situation here. Mr. Hayes has briefly outlined a condition that is familiar to all who know and understand the south. In discussing some time ago the negro question from the standpoint indicated by a number of inquiries propounded by Mr. Edward Atkinson, THE CONSTITUTION, without enlarging on the subject, undertook to show that citizenship, in its true and final meaning, is not the creation of the law, and that it is not the result of education. Some of he noblest citizens of this republic, some of the purest patriots the world has ever seen, some of the undaunted spirits who gav force and meaning and direction to our intitutions were practically unlettered men.

There are thousands of unlettered men in
this country today in whose bosoms the love of liberty beats high, and who are citizens in the true meaning of that term. Though not educated in books, they are educated in

or his children. Let the busy business man to their neighbors, and to the communities in which they live.

Of this education the negro is totally and profoundly lacking. It is useless to argue as to the cause of this ignorance, which is deeper and more alarming than the ignorance of letters. Be the cause what it may, the fact remains the same, and it is a most important fact. The law, which has given the negro the rights of citizenship, has been powerless to make a citizen of him in the final meaning of that term. In this fact lies all the danger, real or imaginary-in this fact is to be found the problem that the newspapers, the politicians and the philosophers are tussling over and contending about The politicians do not admit the fact, the newspapers care little about it, and the philosophers can only chuckle over it as

An International Copyright. The action of the International Typographical Union yesterday in unanimously endorsing the international copyright bill, speaks well for the intelligence and fairness of the body.

### The Promise of the Czar.

If the promises of the czar of Russia mount to anything, there will be a muchneeded reformation in the convict system of that country at an early day. He has given his word to the queen of Denmark that he will investigate the Siberian scandals and institute measures of reform where they are needed. More than this, he will punish severely any officials who may be found to be cruel in their treatment of prisoners in Siberia, and will do all he can to ameliorate the condition of the poor unfortunates.

It is not known whether this humane policy is the result of the queen's influence, or of the vigorous criticism to which the Russian government has been subjected on account of these Siberian outrages, but to whatever cause it may be due, it is a policy which, if carried out, will reflect credit on the czar and popularize his government.

Hitherto Russian officials have been con ent to meet criticism of the convict system of Siberia with a simple denial; no investigation was made, the official presumption being that such outrages as were charged to the prison government did not exist; but now that the matter is to be investigated under the authority of the czar, we may exect a different result.

If to a woman's influence alone this worth work is due, it will be to her a crown more lasting than her jeweled coronet; the people will thank and bless her, while from the gloom of their dungeons the prisoners will look toward her and breathe a benediction on her head.

#### Fighting the Census. An obstinate citizen of Millville, Pennsyl-

vania, refused last week to answer any and all of the census questions. To his surprise, an order was at once issued for his arrest, and if he cannot give good reasons for his conduct before a United States judge, he will be punished.

In such a case, very few people will sympathize with the Millville man. If he had refused to answer two or three questions, it is not likely that he would have been prosecuted. But he showed a disposition to fight the census, and disobey the law. He was not willing to even substantially comply with the regulations.

A complete census is of great importance to the government and the people, and it is the duty of every good citizen to help the matter along. It is impossible to see what reason a man can have for defying the whole thing, and the punishment of such an offender would be in the interests of the public.

Doubtless, very few persons will be prosecuted under the census law, but the government cannot afford to be backed down by the Millville citizen, and the sooner it makes a warning example of him, the better.

GERMANY, engaged in staking off all the vailable land in Africa, remarked to England that that country is not worth fighting for. Under the circumstances England is likely to agree with her, for the tories are not as ready to go to war as they were some years

MR. BENJAMIN HARRISON has not yet read Quay out of the republican party. He has been too busily engaged with affairs of state.

The movement on foot in England to creet a statue to the prince of Wales is unworthy of a sensible people. It is a pity that American law does not provide any punishment in this case other than that which is meted out to the ordinary cfiminal who is guifty of brutality to a woman. Then here is the case made public in Meridian, Conn., of a young Russian who stole \$200 to buy a wife, but was cheated out of her by her father after he had accepted the purchase money. These figures would show that the market value of a wife is greater in China and Russia than in Kentucky." sia than in Kentucky."

The southwest seems to have a large number of wealthy negroes. A Galveston negro named Silvester is reported to be worth over \$350,000. Houston has a negro real estate agent worth fully \$400,000. His name is Mifton Sterrett. Then Sen or Benton, of Fort Bend county, is worth over \$500,000. Henry Black, the cattle man, is worth nearly half a million. Robert Church, of Memphis, has a fortune of \$250,000. All of these negroes have made their money in the past twenty years, and many others might be mentioned of equal standing. In Georgia there are few really wealthy negroes, but property is more equally di-vided among them, and they are known to be worth about \$20,000,000. This is progress, and shows that in the south there is no bar to the prosperity of the colored race. These facts are significant, deserve consideration. They answer some of the charges made by northern politicians against the whites of the south.

PRINCE BISMARCK claims that he has been mis represented by his enemies. He declares that he is not angry with the Emperor William, but feels like a father who has been ill treated by his son. He ascribes his dismissal to the fact that he is too old to be much with the emperor, who has yielded to the influence of the prince's opponents.

The Rev. Dr. Wilson, of St. Louis, says: "The failure in business of a prominent elergyr gests the fact that very few preachers e ceed in making money. When they do the religion generally oozes out as the dollars come in, and they end by giving up ministerial work altogether. Preachers, particularly Methodist preachers, are ilmost always poor, and the next to them in point of poverty are the Bantists. The majority of charity greatly diminish their incomes. Presbyterian clergy are better paid, while the church of England ministers, both here and in Great Britain, fairly roll in wealth by comparison. The English pishops have princely incomes, the lowest being \$10,000 and the use of a mansion connected with the cathedral. The archbishop of York, who is "primate of England," has \$50,000 a year, and the archbishop of Canterbury, who is "primate of all England," receives \$75,000 and has two mag nificent palaces. Methodist bishops are poorly paid. Those of the Methodist Church South have \$3,600 salary, while those of the church north have a little more, but none of them lay by anything of their salaries. Bishop Warren, of the church north, is rich, having married the widow of a ranchman in Denver. But Bishop Hendrix, of the Methodist Church South, enjoys the distinction of being the richest bishop in America, having in herited a fortune, which, by careful management he has greatly increased. He has the reputation of being both benevolent and rich. To and colleges he is especially liberal, and Central college, in this state, owes its present prosperity to his generosity. I was more than pleased with an article in your issue of May 27th, signed "Citizen," correcting this very false report. It is more gratifying to see the correction first come from a disinterested source, and I would like to confirm "Citizen's" statement through your columns. It is but just to the hospitable people of Syracuse, as well as to Miss Davi's noble and attractive qualities, that the true character of her reception here should be correctly understood. Miss Davis was welcomed most cordially by the people of this city, and in no instance was there a single exception to the kind reception given her. The Plans of a Wealthy Syndicate For Cra

fish Springs and Walker County-Gen Wilder the President. At Crawfish Springs-a splendid city.

A sixty-five thousand-acre tract of valuab land adjoining, with-in addition to un mineral wealth—a vein of Pocohontas coal: All this owned by one big syndicate, with General Wilder as president!

Those are the principal features of a mo interesting story of development of Georgia resources which is now told for the first tim Yesterday morning there began a movement of convicts in different parts of the toward Walker county. The news of the movement reached Atlanta, and an investiga tion for the purpose of ascertaining the cane developed a story of great interest to a

Georgia. In brief, it is this: A syndicate made up wealthy English, eastern and Atlanta capi ists have purchased a great tract of the me valuable lands in Walker county, and they are putting into effect plans for the most th development.

These plans embrace many interesting

To begin with, Crawfish Springs, in Wal county, is taken as the basis. At this per which is famous from an historical stand and beautiful from whatsoever standpoint years are may regard it, a splendid city is to be but The natural advantages are unsurpassed, as as the capital back of the enterprise is un ited it is safe to predict that the city will be a that its projectors hope for it.

The company owns a tract of 4,600 acre beautiful land here—a tract two miles by tr and a half. This is to be the site of the cip A topographical engineer has been there several days laying off the city, and by today work of grading, leveling for streets, etc. will be begun.

But the city is a small part of the plan.

Adjoining the tract which is to be devoted to city purposes—which, by the way, is right to city purposed Chicamauga National park at the proposed Chicamauga National park lies a tract of 65,000 acres of the best miner land in Georgia, which is also owned by this same sydicate. This property stretches from Crawfish Springs to the point of Lookout Mountal and besides untold mineral wealth, contains

great vein of the finest coking coal A railroad is to be built from the springs the coal mines. This road crosses the Chi nooga Southern, giving a second railroad into Chattanooga, the first being the Chattanooga, Rome and Columbus, which rethrough all this property. This will give the new city splendid railroad facilities, whi will be increased by the Chattanooga, and Columbus double-tracking into Chatta

nooga and running hourly trains. Four Georgians are among the gentler largely interested in the new syndicate-Captain J. W. English, Mr. George Parrett Mr. W. B. Lowe, of Atlanta, and Colonel J D. Williamson, president of the Chattane me and Columbus. These gentlemen s that they are not at liberty to give the ma rott, "among the leading capitalists of New York and the east. Three of them, for instance, are rated at \$30,000,000, and the other

are all wealthy. Captain English told the story of the enter

prise yesterday. "Crawfish Springs" he said "is one of the most healthful spots in the whole cour It is just thirteen miles from Chattan and has every possible advantage that could be desired in a beautiful residence city. It adjoins the National park and have essible in good, pure air, high location, bea tiful surrounding, and all that. But more than these, it has one great advantage over every other spot I know of, in its water. The springs are the most wonderful I have ever een. The water is the finest in the world, and the quantity of it is simply marvelous. From one spring the flow is said to be 16,000,000 gal-lons per day, and from the two there the flow is three lanta each day. The value of such water is

Then he continued: "We propose to dam up the stream which the spring to Chicamauga creek, flows from making a beautiful stream of clear, living water, two hundred feet wide. At its mout there will be a fall of several feet, the power o which we propose to use in making electricity to light the town. Then there is a plan on foot to pump the water to a reserveir on Missionary Ridge and from there let it flow into Chattanooga, furnishing that city with

magnificent water supply.
"These are a few features, that only a few. All this property is in Georgia, being situaled along the Chattanooga, Rosie and Columbia for twenty-five miles, and is full of the richest iron ores. Then we have a vein coal from which coke said to equal the celebrated Pocahontas coke, which gives us facilities for making iron almost are equalled anywhere. Do you know anything about coke? Well, here is the point: Coke to be successfully used in furnaces must be firm enough to hold a 'load.' We have experi mented with this coal of ours and we find that it makes a coke far better than any made in

"Our plan is to make the coke down at the springs—off, of course, from the residence part of the city—and we wil! make it in such a way that the gases generated a way that the gases generated will furnish all the fuel needed in operating the different manufacturing established General Wilder, who has made a ther examination of the property, says we have in that one Pocahontas vein enough coal to run ten furnaces, turning out 125 tons of iron each,

"Just a word about General Wilder," continued Captain English. "He is to be pred-dent of the company when it is formed and his name is alone a guarantee of success. Every-body in the south has reason to know General T. Wilder. Campaigning over the hills of Tennessee and Georgia, he was one of the first people to discover the great wealth contained in these hills, and after the war he became the foremost man in the development of southern sources. And he has been at the head and front of southern development ever since-most of the time in advance of his times. He was the first man to contend that this proper had a Pocahontas vein and to realize all that meant. He is enthusiastic over this property, and I tell you his enthusiasm is

Messrs. Lowe, Parrott and English have besides their interest in the syndicate, mat contract for the use of their convicts, first in

contract for the use of their convicts, first in laying out the town, and then to work the mines there.

The gentlemen interested say there is to be no boom. They are going to lay-out the town, build a fine hotel, erect their furnace and other enterprises, and then put the lots up for sale, fixing a price on each. They think Crawfish Springs—by whatever name it may then be known—will prove a popular residence suburb for Chattanooga and naturally they think they have a big thing in this project. The investment will be between one and two millions.

While the Brunswick Riflemen Carry off One of the Maiden Drill Prizes-Closing Scenes of the Great Drill.

KANSAS CITY, Mo., June 9 .- [Special.]-The Atlanta Rifles get the first prize.

Captain Spencer gets the fine diamond-studded sword.

The Brunswick Riflemen get the third prize in the maiden drill.

Two prizes go to Georgia and the Georgia troops have gone home happy. The award was made this afternoon at 6:30 o'clock and in forty minutes the Atlanta boys and the Brunswick boys were on their way home, singing as the train rolled out of the depot: "We are the people," The scene upon the drill ground when the awards were made cannot be described. The Rifles have made themselves great favorites and their Kansas City friends were greatly

rejoiced over their success.

This morning the Marmaduke Guards went upon the field for an exhibition.

THE INDIVIDUAL DRILL.

Their work was pretty, and when they came off the individual drill began. There were fifty-two entries, Will McMillan being the representative of the Rifles. The inspection was careful, thorough and searching, and when it was over nearly one-third of the time had dropped off. Then the work began. For an hour it went on, every now and then a man dropping out. The work was fine, some of it almost marvelous. When McMillan dropped out there were only two men left. A minute later one of these two made an error and Private Sleeper, of the National Fencibles, was the winner. As he faced his company he was lifted from the ground by his friends and carried to the grand stand. An hour later the Fencibles came upon the ground for their work in the international. The company made a magnificent appearance and as the work was done, every movement was closely watched by the boys in the grand stand in uniform. When the company left the field they were equal in the pools with the Atlanta Rifles. It was the last company to drill, however, and with their drill the pool-selling closed and the impatience of the crowd increased.

THE LAST DRESS PARADE.

At 5 o'clock the entire camp turned out for the last dress parade and to hear the award of the judges. The Third Missouri band was out and the parade was the finest seen upon the ground. The grand stand was crowded and the military display was greatly admired. The parade was over by 6 o'clock, but the companies were brought to a rest and compelled to await the arrival of the judges. When they came upon the parade grounds the noise all ceased and the attention of all was centered upon them. Captain Waters read a farewell address to

the visiting companies, and then Lieutenant Brown announced the award.

ANNOUNCING THE AWARDS.

The highest possible score, he said, to be attained was 179. The best score made was 171. It was by the Atlanta Rifles, and to them the first prize is awarded in the interstate drill.

The Atlanta Rifles were just to the judges' right, and as a happy smile spread over each face a decided inclination to dance, leap and yell was apparent. The officers of the company, however, suppressed all this, and the boys were compelled to remain quiet and still. The award continued: The second prize,

Company G, First Missouri Infantry. Third prize, National Fencibles.

Fourth prize, Muscatine Rifles. The maiden class was then taken up. In it the Brunswick Riflemen made a fine showing, and to that company the third prize was awarded. The Omaha Guards, a company which entered both classes, secured the first. The National Fencibles, in both classes, the nd Company G, of the First Missouri,

the fourth.

CAPTAIN SPENCER'S SWORD. A magnificent sword-the handle and scabbard studded with diamonds-was a prize to be awarded to the best captain in the camp. The judges gave it to Captain Spencer, and it is a trophy of which any man may be proud. The captain was called before the judges, and the sword, with a neat speech, was presented to him. The Atlantians could not stand this, and when a yell went up from the grand stand, the Rifles raised a noise loud enough almost to be heard in Atlanta

BRUNSWICK JOINS IN.

The Brunswick boys, too, joined in that yell, nd as Captain Spencer received the sword he was surrounded by a great throng, one wanting to his hand first. The captain handed the sword to Bobbie Bruce, the mascot, and then returned to his company.

Mrs. Spencer was in the grand stand and was the happiest lady on the grounds. The mascot carried the sword to her and as she received it numbers of ladies pressed around to congratu-

THE BAND PLAYS "DIXIE." As the judges finished the awards Lieutenant Snook yelled to the band leader: "Give us Dixie, please." The band struck up Dixie

and every soldier on the ground began yelling. Between the two, the noise deafening. Captain Spencer gave the company to his first lieutenant, who marched them to the union depot.

At the grand-stand, Captain Spencer was met by his wife, who threw both arms around his neck. The captain was just as happy as his wife, and for half a minute both forgot the entire world.

OFR FOR HOME.

The special train-the one on which the Rifles came-was ready for them, and at 7 o'clock, Thad Sturgis, of the East Tennessce, saw very one in place. Ten min-utes later, the train pulled away. The Atlantians will spend the day tomorrow in St. Louis, and will leave there tomorrow night for Memphis. E. C. BRUFFEY.

7 o'clock last evening. People hurried home, and those who had no homes sought shelter in the public resorts.

But a transformation occurred later on, in spite of wind and rain At a quarter to eight the fire-bells rang out,

from mouth to mouth.

The latest bulletins were read and—"The Rifles have won!" The Rifles have won!"

A procession was soon formed, the stay-at-home members of the Rifles in the lead, and mingled with the throng were some of the staid and sturdy old graybeards, who were overcome by the enthusiasm of the moment, and assisted the boys in taking in the town. Drums beat and all sorts of musical instruments helped to pile on the pandemonium.

The doors of their elegant armory were thrown wide open, and the hall was soon filled with members of the Guard, chiefest among whom was Captain Snead, who seemed to enjoy the triumph fully as much as if the eagles of victory had perched upon the ban-

Right hastily the meeting was called to order, Captain Snead was called to the chair, and so soon as the clamor subsided a set of

were introduced to the following effect:
The Gate City Guard send congratulations to the Atlanta Rifles, and invite them to be the guests of the Guard, on the night of their arrival in the city.

Just at this time an interruption occurred

After the formalities of the occasion had

been concluded, refreshments were served, from 9 o'clock till 11they enjoyed themselves, Rifles, Guards and Cadets, rejoicing over the triumph of Georgia's crack company, and finally the boys formulated the following:

J. E. Morris, Secretary.

This was sent off amid the cheers of the assembled multitudes, and having relieved themselves of this responsibility, the assemblage resumed their merry-making.

All sorts of suggestions were offered. Cap

Joyner said that Captain Spencer should ride in no other carriage than the "little red wagon." and he was going to drive him in such style as no Georgia captain was ever driven before. Other suggestions were that all the other commissioned officers should be driven from the depot in procession of four-horse caringes, and the enthusiam of the meeting contipued unbounded until the very late hour

PEACHTREE LOTS SOLD.

The Old Methodist Parsonage Place Sold

One of the most important sales of the year was that of the vacant lot on Peachtree street vesterday, the old First Methodist parse place, between Mr. B. H. Hill's and Mr. J. H. Porter's.

The sale was conducted by Mr. J. C. Hendrix, and was quite a successful affair. The prices were fair—not boom prices, but about what was expected and about what they are worth.

The lot fronts 120 feet on Peachtree, running back an average depth of 307 feet to West Peachtree, with a frontage on that street of 141

with an average depth of 1214 feet, were sold to Mr. Henry Hillyer for \$8,625. About a month ago the property was bought by four Atlanta gentlemen for \$21,000.

We were boys together, have been raised together, and I am going to do my best for him. He was one of the most popular members of the last house, and will be in a position to serve his constituents still better in the next house. I do not know that it is necessary for me to make this statement, but I do not want any doubt to exist as to how I stand concerning his candidacy."

And they rang in the quick taps until all policemen eame running from all parts of the city, supposing that there was a riot.

YESTERDAY THE FIRST DAY OF THE 38TH ANNUAL CONVENTION.

The Organization Completed and Committee Appointed—The Ride Over the City

Yesterday Afternoon.

Yesterday was the first day of the thirty-eighth annual convention of the International

Typographical Union.
They were called to order at 9:30 by President E. T. Plank.
In the original exercises the programme

printed in The Constitution was carried out Rev. Dr. J.W.Lee was introduced by Alderman J. G. Woodward, chairman of the recep-

Mayor Glenn was next introduced by Mr. Woodward. He extended welcome and greeting to the visitors on behalf of the city.

"I am glad to see you here," said the mayor 'We are always glad to have visitors come

MISS FRANCES L. TAYLOR and be with us, for they go off and tell other people what a great city this is."

The mayor referred, in his own happy fash

ion, to the presence of the ladies.
"They improve and help everything they have to do with," said he. "Their presence here is a good sign for you. It shows that you are business men on a business mission, and that you will do nothing you are unwilling for these ladies to know. I want to extend a special welcome to the ladies.

President Plank responded on behalf of the

visiting delegates.

It was a happy-timed and appropriate talk. He expressed the thanks of the convention to the citizens of Atlanta, to the local union, and

to Chairman Woodward and the committee on eception.
"We know now," said he, "what southern hospitality means, and we are indebted to you for that pleasant experience. We thank you

for it, individually and collectively."

THE COPYRIGHT BILL. A number of resolutions were introduced ne of them endorsing the copyright bill no pending in congress. This was adopted.

The resolution reads:
Whereas, The measure known as the Chace-Breckinridge International Copyright bill is now before congress, and
Whereas, The matter is now pending on a vote to reconsider the motion by which said bill failed

The Chattanooga strike, recently inaugurat-

A committee of three was appointed to investigate this strike. The committee is com-posed of Strach, of Georgetown; Ross, of St. Louis, and Markley, of New Orleans. An

early report was requested.

A communication from New York calling attention to the fact that legislation prohibit ing printing in the penitentiaries of that state had been received. The communication called upon the international assembly to take notice and requested that steps looking to the same end in all the states of the country be taken.

Mr. Hawks, of New York, secured the floor in support of the resolution. He explained ontract between certain employing ers of New York and penitentiary wardens which brought about the efforts on the part of

The resolution calling on all the states to take similar action in regard to type-setting and printing by convicts was adopted.

A resolution was presented providing for the taking of initiatory steps for a world's typographical convention during the world's fair at Chicago in 1893.

This was referred to a standing committee. Several resolutions touching the term of apprenticeship were read and referred to the committee on laws. This is a question that has claimed the attention of each successive convention of the body, and one of the resolutions provided for the settlement of the term of apprenticeship for a definite length of time, at least five years, which term could not be changed except by a two-thirds vote of two annual assemblies.

APPEAL FROM THE EXECUTIVE BOARD.

JAPPEAL FROM THE EXECUTIVE BOARD. During the session, probably today an appeal from the ruling of the executive committee will be brought before the assembly. Here is what the appeal is about, as set forth in a printed circular distributed among

forth in a printed circular distributed among the delegates yesterday:

The Evening Journal and the Morning Express, of Albany, N. Y., were bought by Mr. William Barnes, and soon afterward the Express plant was removed to the Journal building. The type for both papers is set up on the same floor, with a partition between. The

forms of both are stereotyped by the same workmen, and both are printed on the same press. Each istch property of a separate company, organized under separate company, organized under separate charters (though Mr. Barnes owns a controlling interest in each). Each has a separate set of books, separate foreman and forces of men, and separate editorial and reportorial staffs, and each has a separate franchise under the associated press. In fact they are "separate and distinct establishmenty" in every sense, except that the type for both is set up in the same building and in the same room. And it is upon this latter circumstance that President Plank based his decision that the interchange of matter is permissible. He holds that the question of ownership has nothing to do with the matter. President Plank rendered his decision, disapproving the position of the Albany Union last December. Then an appeal committee was appointed and considerable correspondence resulted between their committee and the members of the executive council.

President Plank was upheld by the council, and now the Albany Union asks the International Union to decide whether or not the decision was a just and lawful one.

The issue involves the loaning of matter by one paper to another. It is looked upon as an important question by the printers, and considerable interest is manifested in the result.

Kimball house, where carriages were waiting to carry them over the city.

The drive was given by the Atlanta Union. Over fifty carriages were in the line, the delegates being accompanied be committees from the local assembly.

From the Kimball house the carriages proceeded out Pryor and Peachtree, and West Peachtree to North avenue, coming back on Peachtree to Broad and Alabama.

The local time of carriages attracted a great.

deal of attention as it passed along the streets.

From Broad and Alabama the line was taken to Loyd and Waverly Place to Washtaken to Loyd and Waverly Place to Washington. Then by Mitchell to Capitol avenue, and out Capitol avenue to Richardson. At Richardson the carriages turned into Washington street to Mitchell, across the city on Mitchell to Whitehall, and out Whitehall to Mc-Daniel. The railroad was crossed to Peters on McDaniel, then along Peters to Walker and to Mitchell and Whitehall again by Nelson. From here the carriages went direct to the Kimball, arriving there about 6 o'clock.

The delegates were delighted with their drive, expressing themselves as surprised at the size and style of Atlanta.

The International Typographical Union are being admirably entertained by the Atlanta mem-hers. This afternoon they were driven over the city, and tomorrow afternoon and evening will be entertained at Grant Park. The Fourth Artillery band will play from three to half-past six in the afternoon, and from eight to half past ten in the ovening. The public are invited to hear these con-

Its way to Mr. Muse's desk. Another fellow writes from New Hampshire and says he has never been to Atlanta, but from the rustle she is making in the world h puts her down at a half million at least.

SOME CURIOUS LETTERS. "I have here some of the richest and rarest literature to be found anywhere," said Mr. Muse, as he pointed to two immense files of

letters and guesses yesterday.

Every section and region of America is represented here. And it's too funny to read some of these letters. "Take this one as a fair sample," and Mr. Muse picked out a stained, and badly mutilated letter written in a miserable scrawling hand-writing. It was from a Texas convict, and was interesting throughout. It stated that the writer, A. M. Gentry, was a subscriber to THE WEEKLY CONSTITUTION and as he had seen THE CON-STITUTION estimate Atlanta's population at 88,939, he measured his faith in The Consti-TUTION by guessing the same number. He spoke of the late Mr. Grady, and said his Texas speech was the greatest that was ever spoken on Texas soil.

Another letter was dated Haywood, N. C. and read as follows:

I am a patron of THE CONSTITUTION and want to guess at the population of your great southern city. I was in Atlanta in '63, and have always loved the place with melancholy fondness, as my father died there in the late conflict. I guess 137, 063 to be the population of Atlanta.

HOW THE CENSUS PROGRESSES The census is moving on.

The enumerators are putting in their hardest licks this week, and are counting the people

most rapidly.

"Atlanta is a big city."

That's what they all said last night when they had finished exactly one-half of their

census work.

How many people are here will soon be made known, and it is going to surprise even the biggest guessers when the final count is made. Supervisor Thibedeau when asked yesterday how the count has shown up so far replied

day how the count has shown up so far replied with a suggestive smile.

"Well, I think from the way things are going, Atlanta-will give a better showing than East Point, or Marietta, or even Macon."

"Make a guess at the number."

"That wouldn't be fair," replied Colonel Thibedeau, "because I would have an advantage in the guessing and could beat everybody else who have guessed at Atlanta's population."

lation."
"Would you guess ninety thousand?"
"I would guess more than some people might," said the supervisor, with an air that told too plainly that he had been dealing with a string of figures that would out-do the expansive calculation of an astronomer, or make a circulation swearer for a daily newspaper blush with shame.

THE WORK IS RECOMING. THE WORK IS BECOMING.

"The enumerators are doing great work at present," continued Colonel Thibedeau.
"The Constitution's schedule of ques-"The Constitution's schedule of questions published in Sunday's paper is doing a great service for the men, and is shortening their work a great deal, The Constitution has been helping the work all along, and deserves the thanks, not only of the enumerators, but of the people as well. Families have made out their answers on The Constitution's blanks all over the city, and kept them in readiness for the enumerators."

A resolution by Captain English, providing for a reserve force, was adopted.

This reserve force will consist of not less than six men, who will hold themselves in readiness at the station-house for any emergency. Quarters are to be fitted up on the third floor of the station-house building with beds and all other conveniences for the accommodation of the men on the reserve.

The reserve will be detailed every day from the different watches. A special duty of the force will be to attend all fires, and go with the new patrol wagon.

Details for the management of the reserve are to be arranged by Chief Connolly. The chief will at once draw his rules and proceed with the arrangements for this new departure

Hereafter the patrolmen will be required to carry their pistols in scabbards instead of in their hip-pockets, as has been the custom among many members of the force. Patrolman J. M. Reeves, of the day watch, handed in his resignation. It was accepted, and Supernumerary A. M. Verner elected to the regular force in his place. Patrolman Reeves has been on the force just six years last night. He said last night that he had set his sights on a six-year service and had been counting the days for a year past.

Supernumerary W. R. Jones was charged with neglecting his duty. Without trial the charge was dismissed.

Special Officer J. K. Hunter was tried for conduct unbecoming an officer, but the board decided he was not at fault. Hunter had arrested a drayman for feeding his mule on the street, and he was fined \$1 and costs. He came back at Hunter, charging that he neglected to arrest another drayman who was feeding alongside of him at the time of the arrest. Officer Hunter said he did not notice that two draymen were feeding or he would have arrested both. It was merely a case of oversight.

On Sunday last, twenty-six Sunday-school scholars joined the church, professing the fatth and taking the religious vows.

A very large number of conversions have resulted during the meeting, and the deep interest seems to increase.

The meetings will continue at the same hours for the remainder of the week, the morning session being at 9, and the evening at 7:45.

The meetings have been attended with such telling results that the pastor is much gratified and encouraged.

## THE ROBERT CASE.

HE IS STILL AT THE HOSPITAL AND IN A DANGEROUS CONDITION.

Efforts Made to Bring Him Into Court, But His Physicians Consider Him Unable to Stand the Strain of Appearing.

The Robert case is assuming new interest.

The question as to his condition will probably be decided today.

He will either be ordered to jail, or returned

to Providence infirmary. Unless he can give bond

The latter is an unlikely possibility. Rober was arrested under two warrants. The first charged him with assault with in-

ent to murder, and Judge Pat Owen required bond of \$2 500 The other was a city court case and a bond

of \$500 was required, making \$3,000 in all.

The facts of his being sent to jail, under the protest of his attorney, Mr. W. W. Clark, and his subsequent removal to the infirmary, when his condition was found to be so critical, have been published.

REQUIRED TO APPEAR IN COURT. REQUIRED TO APPEAR IN COURT.

Friday Judge Van Epps notified the officers of the court that he had been informed by the county physician that Robert was sufficiently improved to be returned to jail, and when Mr. Clark was given notice he obtained certificates from Drs. Gaston and Parks, showing that his client's life would be endangered by his removal, and that he was in no condition to stand the worry of being brought out on the streets and into court, as he was still very unwell.

Judge Van Epps then allowed Mr. Clark
until noon yesterday to give bond for Roberts'
appearance in court. Mr. Clark was unable to Judge Van Epps then required the county physician to appear in court at 10 o'clock today, and allowed Mr. Clark the privilege of having Drs. Gaston and Parks, also present, to testify as to the condition of Robert.

### HE KEPT A SKELETON.

Doctor's Gastly Relic Visited by the Father of the Dead.

From the Philadelphia Telegraph. "Every family is supposed to have a skeleton in its closet," remarked Dr. Wheeler of Wichita, Kas. to a party of friends recently, "I had one in my closet until this week, when I shipped it to the Michigan State university. I don't want to see it

It happened like this: Many years ago when I began the practice of medicine in a small Missouri town, the Jesse James boys paid us a visit. They raided the bank and got away with \$6,000, but firing was pretty general on both sides. I had a revolver, and during the general excitement I shot one of the robbers. He was dead then we picked him up.
"A finer specimen of physical manhood I have

never seen. The natives in the little Missouri village made no objection when I claimed the youth's skeleton as my prize. "Last week, one rainy night, about 11 o'clock, a genuine old-fashioned frontiersman came to my office. He asked my name, then inquired if I had a skeleton in my closet. His face was bearded and a suburnt, but there was something about him that made me think of the young man I had killed many years before. I was alone in the office, and I didn't like the color of the visitor's eye. However, I answered his question in the affirmative.

"Let me see the skeleton?" said my queer visitor.

Would scarcely do to refuse. I walked to the rear of the office, where there was a small table out of sight of my visitor. I drew out from the desk a revolver, the same one that had ended the career of the youthful bandit years before. Holding it in my hand I stepped to the closet, threw open the door, and remarked with as much cool-ness as I could command by force of will: "There is the skeleton."

"'Put up your revolver,' remarked the stranger I won't hurt you. If I had wanted to shoot you I would have killed you when I came into the office. I have just been down in Oktahoma and am on my way back to Tennessee. I heard the story of your killing one of the gang, and as near as I can make out it was my boy that was killed. He ran away from home when only twelve years old, and I never saw him after that. I don't hold any grudge against you. You did what was right, I suppose But I thought I would take this chance to see wha

is left of the poor boy.'
"I then showed the stranger the skeleton, which was handsomely mounted, and described the raid as briefly and as gently as possible. The old pio-neer's only remark, as he gazed upon all that was left of his boy, was: Well, he was a big fellow, wasn't he?

## A Cromwellian President.

Gath. kind of a man is President Diaz? "He is a pure Indian. You can always tell : gentleman when you come near him, can't you? Well, now, Diaz carries around him the indescrib-able aroma of a gentleman. He is a man about your size, substantial, and inclined to be stout, with dark color. You never see him without a smile on his face. Of course he was a magnificent soldier, as his record shows. He restored his sountry. He has compelled the Mexicans of the present day to accept modern ideas. You saw that yesterday he threw into prison Iturbide? Yes, he did. Iturbide is descended from the first Mexican emperor by an American woman from the District of Columbia. He has a fine plantation in Mexico and he came back there the other day and began to talk against the government of Diaz as if he had special rights. Diaz clapped him into jail. When the grant to the American railroad in Mexwhen the grant to the American rairroad in hex-ico was withheld by the parliament or congress, Diaz was out taking a ride. He came up into con-gress and addressed them, saying: "Signors, you will either pass this bill or go straight home.' They looked a minute, and raised the cry of 'Long live the president!' and passed the bill. This is live the president! and passed the bill. This is the kind of president to tie to. The Mexican army is about 40,000 men; a very good army."

Senator Colquitt and the Matt Davis Appoint-

From the Athens Ledger. The confirmation of Matt Davis as postmaster at Athens hung fire in the senate for sometime. This delay has been attributed to a combination This delay has been attributed to a combination of influences brought to bear on the administration at Washington the most prominent of which, in public estimation at least, was the opposition of Senator Colquitt to the appointment. We are not aware of the amount of service rendered by our esteemed senator in the Davis matter, nor would we intentionally detract from whatever praise may be due him for his efforts in the premises, but his absence from Washington when the ises, but his absence from Washington when the confirmation took place, raises a violent presump-tion that his opposition to the appointment was

Whatever the senator may have thought as to Whatever the senator may have thought as to the propriety of the appointment, or whatever he may have done in opposition to it, the fact is well established that Matt Davis has never manifested the slightest uneasiness about Georgia senatorial interference to prevent his grasping the plum he finally plucked. On the contrary, he has repeatedly said that Senator Colquit would not oppose him, and he knew such to be the fact.

We think this statement of facts presents this matter before the public in its true light.

Colonel Northen Goes it Alone.

From the Birmingham Age-Herald. The determination of Colonel Livingston, of Georgia, to be a candidate for congressman in-stead of making the gubernatorial race very much simplifies politics in our neighboring state.

## GEORGIA RAHLROADS.

IT SEEMS THAT THE AUGUSTA AND WEST FLORIDA IS BOOMING.

An Atlanta Man at the Head of a New Construction Company-All Over the State.

my

d to

that

g ex-

Some month's ago THE CONSTITUTION gave the first news that dirt was broken by the Augusta and West Florida.

Since then the project has been languishing, and people along the route gradually lost their enthusiasm and their faith.

But it seems now that work is to be pashed again, and an Atlanta man figures promi-

nently in this change of affairs. This is Captain T. J. James, the contractor.

The Eyening news of Augusta, says:
By the willing and patriotic co-operation of officers and stockholders the two projected lines to Florida, known as the Augusta and West Florida and the T. J. James route, have been combined under a new management and the new president will be Wm. Bailey, of New-York, and the vice-president will be James U. Jackson, of Augusta.

Mr. Bailey is one of the largest capitalists in New York, and is in Augusta perfecting or-ganization and arrangements with the now construction company, which will build the line. Mr. Jackson is already well known, and his experience in railroad and financial circles fit him peculiarly for his position. He is the broker who has just placed all the bonds of the company in New York, thus guaranteeing the construction of the road.

The new construction company is made up of men of ample capital in New York and Georgia, and contracts are today being drawn and arranged between the road officials and the officers of the construction company. The parties interested in New York, Augusta. Thomasville and elsewhere are satisfied with present arrangements and heartly pleased with

The rumer that President Jesse Thompson, of the old construction company, had sold out, or that President C. E. Smith, of the old railroad company, had sold out, are all bosh. They and Colonel James are more interested in the new construction company and railroad than ever, and will enthusiastically and practically aid in its building.

Another thing. The line will be constructed

even farther than Thomasville. It will be ex-tended to Jesup and a solid connection with Florida points. A northern connection will also be estab-

lished at Augusta, with one of the two lines, but not with the Richmond and Danville.

## A SUDDEN DEATH.

Mr. John Vaschell Bishop Dies of Heart

Mr. John Vaschell Bishop died very suddenly at his rooms on Whitehall street, Saturday night. He came into his room Saturday afternoon complaining that he could not get his breath. He had previously been in his usual health, and at first no especial attention was paid to his trouble, as he himself did not seem to be greatly troubled, and only complained of trouble in breathing.

His friend Mr. Thomas E. Brady was called

in, and seeing that Mr. Bishop was very ill, he sent for a physician. He then asked Mr. Bishop if he desired the services of a priest, but the latter said: |
"No; do you want to scare me?"

The physicians came and did all that could be done, but their efforts were of no avail, and, after suffering for several hours, Mr. Bishop expired. His death was supposed to be caused

by heart failure. He was a man greatly beloved by all who knew him. He was for years con-nected with the Georgia railroad as a boiler-maker, and by his industrial and frugal habits, he accumulated a considerable amount of money, which he in-

A Dummy Conductor Thrown From His Car Sunday.

Conductor Broderick had a narrow escape from fatal injuries Sunday afternoon. He was coming from Grant park with 130 passengers on his car, and was busy collecting

Just as he neared the curve of Kelly and East Fair streets, he pulled the cord several times to register his fares, and the knot in the front end of the car slipped and he fell head-long from the car, which was running very rapidly.

His face and chest struck the belgian blocks,

and for a few minutes he was stunned, but fortunately he escaped with an ugly bruise on his face, and another on his left side.

Those who witnessed the accident feared that he was dangerously hurt, but he soon re-

covered, and as soon as the engineer could stop the car it was backed to the place where he fell, and he was taken aboard.

Delays are dangerous. A dollar spent for Hood's Sarsaparilla now may prevent illness which may be expensive and hard to beat. Now is the time to take it, in order to derive the greatest good.

The Best Recommend

The Best Recommend.

The best recommend a skilled mechanic can give is a specimen of his workmanship and the most satisfactory recommendation for a medicine is its good effect. Now Smith's Tonic Syrup, made by Dr. John Bull, of Louisville, Ky., has been used with good effect in many thousand instances. It needs no other recommend than this. It does every time what is expected of it. If used for chills and fever it cures as certainly and completely as water quenches thirst. In many localities it has almost altogether taken the place of quinine. It has surer effect on chills and fever than quinine, for it has cured many cases where quinine did no good, and then it never produces the after-effect quinine frequently has on the system, such as nausea in the stomach, headache, dizzy sensations, etc. When a person has once used it in place of quinine they will ever afterwards prefer it.

## UNION CONVENTION.

COMMITTEES OF LADIES FROM THE TWO ASSOCIATIONS MEET.

oposition From the Industrial Usion is Amended By the Home For the Friendless.

The Home for the Friendless-The Woman's Industrial Union-

The two great charities of the city of At-And the union was cemented yesterday after-noon by a conference of ladies from both organizations.
The public is familiar with the reports that

have appeared in THE CONSTITUTION concerning the peretalions between the two associa

Yesterday the following ladies, members of the Ladies' Industrial union, Mrs. Clayton presiding, Mrs. B. Stewart, treasurer, Mrs. Mins, Mrs. Goode, Mrs. Orme, Mrs. Jan Mrs. Collier and Mrs. Kimball, met in the parlors of the Young Men's library, and the following committee, Mrs. A cerilly Mrs. Beath, Mrs. Morehead and Mrs. Nelson, from the Home for the Friendless, met with them, to discuss the unification of the two societies.

THE PROPOSITION.

The Proposition.

The following proposition was presented by the ladies of the Industrial union:

1. At a called meeting of the members of the Home for the Friendless, held at the Young Men's library, June 7, 1899, for the purpose of action relative to the proposition presented by the board of the Woman's Industrial union, through their committee, Mr. Miuss and Mrs. Clayton, looking to the union of the work of the two societies under one management, it was unanimously agreed that co-operation by the two societies upon some proper basis of union was desirable, and that such union would secure greater good than both societies could accomplish separately. And it was voted to accept substantially the proposition made, as fc.ows. In order to further such co-operation, we accept the proposition of the Woman's Industrial union, to pay for the building of the industrial department of the home, to consist of a kitchen, pantry, laundry, dining-room, sewing-room and school-room, with the addition of bath-room and office or committ-e-room, which include the entire first story of the building proposed to be build, said department to be properly equipped and furnished by the union, paying to the trustees of the home the actual cost of said first story and its equipment, and one-third the cost of furnace or such heating apparatus as shall be decided upon.

2. That regular industrial training shall be given to pupils, which shall include not only the school work, but all practical work connected with any department of the home.

That the industrial course shall be employed, the salary of such teacher to be paid by the Industrial union.

That the industrial course shall be two years, more or less, as shall be decided upon the school work, but all practical work connected with any department of the home.

That the industrial course shall be two years, more or less, as shall be decided upon the school work, but all practical work connected with any department of the home.

the salary of each teacher to be paid by the industrial union.

That the industrial course shall be two years, more or less, as shall be determined by the executive board.

3. That as many day pupils shall be received as can be taught to advantage, under such restrictions as shall be adopted by the board.

That representation shall be given the Industrial union on the executive board of the home and on committees. Members of the union before being so elected to become members of the home as required by their constitution and by-laws. That representatives shall also be given the union on the board of trustees of the home.

The entire control of the home and all its departments to be vested in and be exercised by its officers and executive board.

That if at any time the use of the property to which the union contributes towards building is discontinued for the purposes of a home, including the industrial department, as provided in this proposition, and the property sold for any purpose other than to change location and re-invest for some purpose, the amount contributed by the Industrial union shall be returned to them pro rata as to other contributors.

to them pro rata as to other contributors.

THE AMENDMENTS.

After some disscussion the resolutions were amended and reamended, until that portion relating to the committee-room was left off, as it was decided that it was unnecessary.

Another amendment was that instead of the union "paying to the trustees of the home the actual cost of the equipment of the first story, etc.," the union agreed to pay \$3,000 in cash, which is to cover the entire work required of them, and the latter part of "Paragraph 1" was stricken out. The bulance of the resolutions were adopted unanimously, and the ladies expressed great enthusiasm in regard to the work.

THE LOT PURCHASED.

A splendid lot has been secured on Randolph street, half a block from the Fultou county electric line, and the plans for the building have been siready drawn.

Some changes will be necessary to make the plans coincide with the changes in the resolutions made during the meeting vesterday. butions made during the meeting yesterday.

So soon as this is done the work will proceed, and Atlanta will soon boast of one of the finest and best equipped charitable institutions in the south.

The work of collecting contributions to the good work goes steadily on, and the success of

good work goes steadily on, and the success of the movement is assured. For which all credit is due the women of Atlanta.

## A FUNNY CASE.

MINERALOGIST ARRESTED FOR A MOONSHINER.

He Tells His Little Tale of Woe Before Judge Haight-How He Roughed it In the Georgia Mountains.

A mineralogist—not a moonshiner. Such was the verdict in the case against Charles E. Sharpnack, tried before Commis-sioner Haight yesterday. Mr. Sharpnack is a young man, who has

ust come to Atlanta as an artist in house painting, and has charge of the improvements now being made on the interior of the old

His career as a mineralogist-for such he in this capacity he went to the mountains of Murray county, and there became entangled

in the case that brought him before Commissioner Haight yesterday.

He was charged with violating the revenue laws by assisting Mrs. John Brackett, the famous moonshiner of Murray county, of conducting an illicit distillary. ducting an illicit distillery.

The evidence in the case unfolded an interesting story. The warrant for Sharpnack's arrest was authorized by John Brackett, who has just finished serving a term of three months imprisonment for illicit distilling.

When Sharpnack was arrested he was at work in the old capitol, and was much surprised at the warrant. He appeared before Judge Haight last Friday, but owing to the absence of witnesses was bound over until yesterday, when the case was again called.

SHARPNACK'S STORY.

The defendant was innocent, and such was he nature of his pleading.

He told the story of his career in the moun

"Early last fall I went to Murray county vith Mr. Frank Hoffman. Mr. Hoffman and myself went there for the purpose of inspecting some land which he had his eyes on for the mineral deposits that were supposed to be

the mineral deposits that were supposed to the tract.

"We knew nothing of the mountain country, so we went to Mr. Brackett and asked him to go through the country as a guide with us, promising to pay him the money or work for him on his farm the same number of days he served us. Soon after we had finished our geological surveys, I went to work for Mr. Brackett, according to promise, and helped him on his farm. His wife ran an illicit distillery, but I never assisted her in the work.

wife ran an illicit distillery, but I never assisted her in the work.

"I was surprised at my arrest, and know that there's something else behind it all."

Sharpnack appears to be a well-educated and intelligent fellow, and it is likely that some further incidents will show up in the case of a sensational nature.

He was acquitted by Commissioner Haight.

He was acquitted by Commissioner Haight.

Keeping House With Cockroaches,
Beetles, water bugs, etc., is not pleasant. The
most effective and permanent remedy is—for two
or three nights to sprinkle ROUGH ON RATS dry
powder unmixed, in, about and down the sink
and drain pipe; scatter it well but thinly over the
sink. First thing in the morning wash it all
away down the drain pipe, when all the insects
from garret to cellar will disappear. The secret of
this is in the fact that wherever the bugs or insects may be during the day, they must go to the
sinks for water during the night. They can't
stand ROUGH ON RATS in their water. This is
the quickest, most effective and satisfactory
remedy. ROUGH ON RATS being a poison, it
should be used in this way only at night and
washed away early in the morning. Another way
is to mix a tablespoonful of ROUGH ON RATS
with a half pound of brown sugar. Sprinkle it on
rear of cupboard shelves or on plates, or on sheets
of paper placed high out of reach of children.
Cut this out for directions.

How to Buy Cigars. Is it more profitable for a retail dealer in cigars

to buy from the manufacturer than from the jobber? This is a vital question for every retailed

Jobber? This is a vital question for every retailer to consider.

We have saved our customers the jobber's prifit for the last six years. This accounts partly for the steady increase of the demand for our fine Havana cigars which equal in taste, flavor and Spanisn workmanship the best imported from Cuba; and they give entire satisfaction, for Atlanta's prominent men have been our steady customers ever since we established our factory.

We sell to the retail trade at wholesale price in quantities of one box and upward. We guarantee our goods and ship them to any place in the country. And we are willing at any time to take the goods back and refund the money if they do not turn out to be as we represent them. The buyer runs, therefore, no risk at all.

There are many smokers who pay high prices for cigars which do not satisfy their taste. Let them call at our factory and get their money's worth, or write to

## Ayer's Sarsaparilla The Best

## **Blood Medicine**

So say Leading Physicians and Druggists, and their opinion is indorsed by thousands cured by it of Scrofula, Eczema, Erysipelas, and other diseases of the blood.

"Ayer's Sarsaparilla has won its reputation by years of valuable service to the community. It is the best."—R. S. Lang, Druggist, 212 Merrimack st., Lowell, Mass. Dr. W. P. Wright, Paw Paw Ford, Tenn., says: "In my practice, I invariably pre-scribe Ayer's Sarsaparilla for chronic dis-cases of the blood."

Dr. R. R. Boyle, Third and Oxford sts.,

Philadelphia, Pa., writes: "For two years I have prescribed Ayer's Sarsaparilla in numerous instances, and I find it highly efficacious in the treatment of all disorders

L. M. Robinson, Pharmacist, Sabina, O., certifies: "Ayer's Sarsaparilla has always been a great seller. My customers think been a great seller. My customers think there is no blood-purifier equal to it."

"For many years I was afflicted with scrofulous running sores, which, at last became so bad the doctors advised amputating one of my legs to save my life. I began taking Ayer's Sarsaparilla and soon saw an improvement. After using about two dozen bottles the sores were healed. I continue to take a few bottles of this medicine each year, for my blood, and am no longer troubled with sores. I have tried other reputed blood-purifiers, but none does so much good as Ayer's Sarsaparilla."—D. A. Robinson, Neal, Kansas.

6xx10 feet, Collins street, improved \$7,500, cheap.
Do not forget about farms; we have several; some of them can be bought for less than they are worth. We have several places near the city suitable for sub-dividing. We have some vacant land at Edgewood, convenient to both electric lines, that can be bought and sold to parties who will be connected with the Atlanta Car Works. We have several nice places for rent, and we want more houses for rent. We still negotiate loans for other people. If you need some income and are willing to give us a chance we believe we can get it for you. We have some nice building jots at Clarkston; we will sell one or all of them if the people want them. We have property vacant moderately and elegantly improved, and in many cases parties know their value and will sell. Call and see us. Scott & Liebman, 20 Peachtree street.

## THE NEW PRESIDENT

OF THE YOUNG MEN'S LIBRARY
ASSOCIATION

And the Work That Has Been Cut Out For the Year-A Good Start For New Members.

At the meeting of the library board of directors last Tuesday forty-five new members were brought in.

The new president enters on his year's work with a vim. At the first meeting of the di-rectors he pledged himself to bring 200 new members into the association this year by his own efforts. He made a start last week by bringing in twenty-seven in a few days. Heretofore, Professor Slaton has brought in

over one hundred members, and he bids fair to carry out his pledge for two hundred this year before his term is more than half out. Where does he get them? This opens the

fessor Slaton has done. It is through the boys and girls who have come directly under his tuition. Since he came to the high school, in 1881, about 500 boys have come directly under his tuition, and he has made friends of them as he led them skilfully along the rocky road that schoolboys have to travel. He has the tact for which his father, Major W. M. Slaton, is famous.

Professor Slaton's life has been a busy one since he was fourteen. As the college catalogues say the commencement of life is where school ends, it will do to take him when he graduated with distinction at the University of Georgia in the class of 1873, when Dr. A. A. Lipscomb was chancellor. Immediately afterward he was made first assistant of the Sam Bailey Male institute, at Griffin. He was then only eighteen years old and the appointment was a weighty honor for one of his age. The next year, without his knowledge, he was made first assistant of the Griffin female college. Then he was made principal of the Sparta Male and Female academy, which was then in a delapidated state. In the five years or more that Professor Slaton remained there the institution grew to prosperity, and the numerous rivals that had grown up about it in the time of its decay, disappeared, so that the town united with its one prosperous instiin the time of its decay, disappeared, so that the town united with its one prosperous insti-

the town united with its one prosperous institution.

In the summer of 1881 Professor Slaton was
assistant in the Boys' High school, and he has
taught there ever since. During the life of
Dr. Orr, Professor Slaton was appointed lecturer in the Peabody institute, held in the
summer vacation, and upon his thetures there Dr. Orr paid him
a very high compliment.

The professors work has not been confined
to this state, as director of the national educational association for Georgia he has been very
active in promoting educational interests.
Within the last few days he has issued a circular to the Georgia teachers, urging a full attendance on the next meeting of that body at
St. Paul.

His connection with the library has been need long and active service, and since he was elected a director he has held the offices of secretary, vice-president and president. His promotion to the presidency he takes as a

responsibility and an opportunity.

"There are three things we must do this year," he said, when he accepted the office.

"We must add members, get new books and pay off the bonds."

The probability is that all three will be accomplished.

The library property has become a handsome one, and its finances are in good shape.
The officers now are:
Professor W. M. Slaton, president.
Captain W. D. Ellis, vice-president.
George R. DeSaussure, treasurer.
George B. Forbes, secretary.
Miss Fannie Wallace, librarian.
George Campbell, assistant librarian.
They are all devoted to the work, and with

W. W. DRAPER, of Draper, Moore & Co. CHAS. S. KINGSBERRY, of Bates, Kingsberry & Co. GENERAL JOHN B. GORDON, Governor of Georgia, E. C. ATKINS, of J. W. & E. C. Atkins. MALCOLMJOHNSON, J. H. JOHNSON, J. W. GOLDSMITH,

On thoroughly business principles, as is practiced in the management of a bank, a wholesale house, or the state of Georgia, all things being characterized by system, order, promptness, dispatch, safety and economy. No institution can excel it in these essential features.

206 Branches organized and in active operation, carrying \$3,600,000.00 of stock at small cost, in the aggregate above one local association of 2,000 shares. \$5 paid monthly for 96 months estimated to mature the investor \$1,000.00, or an outlay of only \$480 for the average time of 4 years.

\$400 cash, invested in paid up stock, estimated to mature \$1,000.00 in years. This is invested in first mortgages on clear titled real estate, worth double to five times amount of loan, which is being paid back, principal and interest, monthly. What better investment can be made than this? It is surer and safer than stock in the briar patch, pine-thicket syndicates, in which you are importuned to enter, to dwell with, possums, snakes and jays birds. Close out your interest in such syndicates and invest in the

THE STOCK MARKET.

The Day on the Floor of the New York Stock

NEW YORK, June 9.—The stock market was NEW YORK, June 9.—The stock market was comparatively quiet today, and while inclined to weakness under the hammering of the room contingent, later developed a strong tone and all of the early losses were regained. The passage of the silver bill by the house of representatives Saturday finished a topic of conversation for the street today and there was some expectation that there would be a little boom on the strength of it. there would be a little boom on the strength of it. There was some buying at the opening which, with limited offerings, had the effect of opening the market up from ½ to ½ per cent, but the disposition among a majority of the operators was seen to await the action of the senate upon the matter and the advance went but slight fractions further. The trading element interpreted this as an indication of weakness and made some attacks upon the list here and there, but outside of the trust the impression made was slight, although some selling for London accounts caused a de-pression. Toward noon the announcement was made that pressure rates had been restored all around and the Villards were the first to feel the stimulus, Oregon Transcontinental moving up nearly 2 per cent. Richmond and West Point fol-lowed later with a smaller gain and trusts rose handsomely from their lowest points. The talk of the street has it that Transcontinental is worth on the street has it that Transcontinental is worth on the books about 55, but prospects of dividends, after reorganization, are said to be the chief stimu-lating influence at present. Richmond and West Point rose sharply and the rise was accompanied by rumors that insiders would probably obtain control of the Baltimore and Ohio. There was ev-idence of inside buying also. A general revival of confidence, however, was shown in all portions of confidence, however, was shown in all portions of the list and in the last hour traders who had been sellers in the forenoon, took hold of one stock after another and aided materially in advancing prices. Trusts were not so active, but while they showed some wide fluctuations, they were on a smaller scale than usual of late and they fully responded to this late strength in the regular list. The close was quiet and firm at only slight changes from firm prices. Final changes are quite irreg-

ular and usually insignificant, but Oregon Trans-continental is up 1½ per cent, and Sugar and Mis-souri Pacific 1 per cent each. Sales of listed 220,000, unlisted 34,000 shares. Exchange quiet but firm at 4851/2@4871/2. Subtreasury balances: Coin \$162,833,000; currency, \$6,026,000.

NEW YORK, June 9-[Special.]—The Liverpool market this morning plainly felt the impulse of the passage of the silver bill by the house of representatives on Saturday and advanced some 2@ resentatives on Saturday and advanced some 2@ 3-64d as compared with the closing figures of last week. Spot sales 7,000 bales. The result has been a further advance 40 12.15 for August here. The new crops have sympathized but slightly, most operators being disposed to await the publication of the bureau report tomorrow. The speculation in August has continued narrow, but the attempt on the part of those credited with the manipulation has been palpably toward an increase of on the part of those credited with the manipulation has been palpably toward an increase of their holdings, and in this we think they have been to some extent successful. THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Provisions.

CHICAGO, June 9—Wheat—Only a light business was transacted today, and the market ruled quiet most of the session. There was nothing new brought to light to stimulate or excite trading, and operators were generally disposed to await the government report, which will be made public tomorrow. The market opened about the same as Saturday's closing to ½c higher, eased off ¼@½c, became stronger, and prices advanced %20%c, ruled weak and declined %201%c and closed %0 lower for December than the closing figures Saturday. Crop advices from the northwest continue favorable, while from the winter wheat districts nothing of importance sufficient to have any ef-fect on the market was heard.

Corn—There was a fair shipping business, and the feeling was firm, slight gains being the rule on all futures. Cooler weather had a stimulating effect on values, and the fear that the government crop report will be rather unfavorable also had its effect on prices, affecting receipts and a large in crease in the visible supply. The market opened firm at about Saturday's closing prices; and, under a good general demand, advanced \$\%c\$, eased off some, ruled steady and closed \$\%c\$, c's better than Saturday.

Oats were active, stronger and higher, especially for the new crop deliveries, which received the most attention. The strength was due to unfavorable crop reports, especially from Illinois, where the crop is said to be affected by lice. These re-ports prevented operators from selling freely and created a good demand. Competition among buyers caused a firm market, and prices advanced 1½ @1½ c for August and September. July sympathized to a moderate extent, but only advanced ½ c. Mess pork—A little more life was manifested, but trading was limited. Prices ruled 5@10c higher, and the market closed quiet at inside fig-

steady. Prices advanced 21/2@5c and closed steady at medium figures. Short ribs—Trading was moderate, and the feeling was steadier. Prices were advanced 2½c early in the day, but were not supported to the close.

MADDOX, RUCKER & CO., BANKERS,

Having added \$50,000 to our banking property, we are now arranging to move our office on the corner of our block, where we will be in a more prominent position, with better facilities, and we now propose to give more attention to the banking department of our business.

We solicit the accounts of banks, merchants and individuals, and will extend every accommodation consistent with sound banking.

Will negotiate loans on marketable securities.

Allow interests on time deposits.

Having repeated requests, from various sources, to buy and sell stocks and bonds, we have concluded to deal generally in miscellaneous securities.

Will buy and sell on commission, state, municipal and railroad bonds, and all kinds of stocks.

We can place first-class investment securities to advantage, and we invite proposals from cities and counties, when issuing bonds.

We do a general banking business and invite
